Introduction

Thank you for purchasing SoftBank 001SC.

- Read this guide thoroughly before using handset to ensure proper usage.
- Accessible services may be limited by contract conditions or service area.
- Handset is compatible with 3G network technologies.

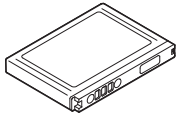
Notes

- Unauthorized copying of any part of this guide is prohibited.
- Contents are subject to change without prior notice.
- Steps have been taken to ensure the accuracy of descriptions in this guide. If you find inaccurate or missing information, contact SoftBank Mobile Customer Center, General Information (➔P.14-29).

Accessories

Make sure the following accessories are included in the package with handset. These accessories are also sold separately.
For details on accessories or optional items, contact SoftBank Mobile Customer Center, General Information (P.14-29).

Battery [SCBAY1]



Quick Start Guide (Japanese)

Safety Precautions (Japanese)

Warranty (Handset)

- Use only specified Charger (sold separately) for charging.
- Handset takes microSD™/microSDHC™ Memory Card (not included). Purchase one to use Memory Card functions.
- microSD™/microSDHC™ Memory Card is referred to as "Memory Card" in this guide.
- Download Samsung New PC Studio from SAMSUNG Website (http: //jp.samsungmobile.com/pc/lineup/001download.html).

About This Guide

In this guide, SoftBank 001SC is referred to as "handset." Instructions are described using mainly default settings. When settings are changed, screenshots or handset responses may differ from those depicted in this guide.

Screenshots & Handset Illustrations

Screenshots appearing in this guide are for reference only and may differ from actual Display images. Handset illustrations may differ from actual appearance. In some screenshots, Wallpaper is set to None for Display image clarity.

Confirmations & Warning Messages

Messages not described in this guide may appear; read all handset confirmations and warning messages carefully.

Japanese Functions & Services

When " (Japanese) " appears in a title, Japanese ability is required to use full range of the function or service.

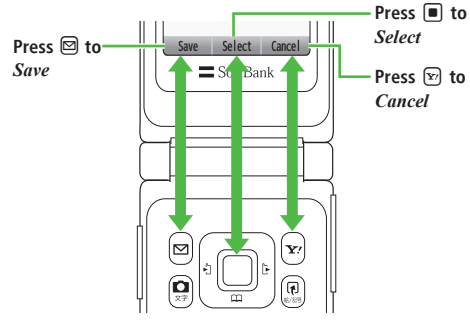
Symbols

In this guide, graphics represent handset keys; see "Parts & Functions" (➲P.1-2).

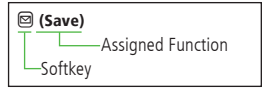
Softkeys and Multi Selector operations are indicated as follows:

Softkeys

Operation options such as "Select" and "Save" appear at the bottom of Display (Softkey area). Press the corresponding Softkey to execute assigned functions.



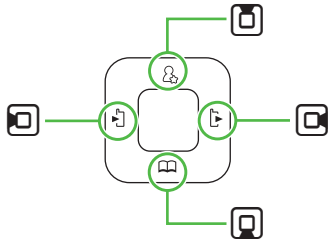
Softkey Operations



Multi Selector Operations

Use Multi Selector to select menu items, move cursor, scroll, etc. In this guide, Multi Selector operations are indicated as shown below:

Basic Multi Selector Operations



: Press or
: Press or
: Press , , or

Menu Operations

Menu operation explanations are abbreviated with arrows.

Main Menu

1 ■ → *Settings* → *Display settings* → *Wallpaper*

Highlight an item and ■ (Select)

For details, see "Using Main Menu" (➔P.2-2).

Menu

1 → *Send* → *Via infrared*

Highlight an item and ■ (Select)

Press (Menu) to open Menu

Highlighting

In this guide, "to highlight" means to move cursor to an item.

Safety Precautions

Read safety precautions before using handset.

- Observe precautions to avoid injury to self or others, or damage to property.
- SoftBank Mobile is not liable for any damages resulting from use of this product.

These labels indicate the degree of risk from improper use. Make sure you thoroughly understand their meanings before reading on.

Danger	Great risk of death or serious injury[1]
Warning	Risk of death or serious injury[1]
Caution	Risk of injury[2] or damage to property[3]

1 Includes blindness, wounds, low/high heat burns, electric shock, bone fractures, poisoning or other physical harm with aftereffects, or requiring hospitalization or ongoing hospital visits.

2 Includes wounds, burns, electric shock or other physical harm not requiring hospitalization or ongoing hospital visits.

3 Includes damage to home, furniture, livestock, pets, etc.

These symbols indicate prohibited or compulsory actions. Make sure you thoroughly understand their meanings before reading on.

Prohibited	Prohibited actions
Do Not Disassemble	Disassembly prohibited
Avoid Liquids Or Moisture	Exposure to liquids prohibited
Do Not Use Wet Hands	Use with wet hands prohibited
Compulsory	Compulsory actions
Disconnect Power Source	Unplug Charger from outlet

Handset, Battery, USIM Card, Charger (Sold Separately) & Memory Card (Sold Separately)

⚠ Danger

Use specified battery and Charger (sold separately) only.

Non-specified equipment use may cause battery to leak, overheat, burst or ignite, and may cause Charger to overheat, ignite, malfunction, etc.

Compulsory

Do not disassemble, modify or solder handset or related hardware.

May cause fire, injury, electric shock or malfunction.
Battery may leak, overheat, burst or ignite.
Modifying handsets is prohibited by the Radio Law and subject to a penalty.

Do Not Disassemble

Do not expose internal handset parts or related hardware to liquids.

Do not leave handset or related hardware wet after exposure to water, pet urine, etc., and do not charge wet battery. May cause overheating, electric shock, fire, injury or malfunction. Use them in an appropriate place properly.

Avoid Liquids Or Moisture

Do not charge battery in or expose handset or related hardware to extreme heat (e.g., near fire or sources of heat, in direct sunlight, inside vehicles, etc.).

May cause warping/malfunction; battery may leak, overheat, ignite or burst. Handset or related hardware may become hot to the touch, leading to burn injuries, etc.

Prohibited

Do not force battery/Charger into handset. Check the direction and retry.

Battery may leak, overheat, burst, ignite, etc.

Prohibited

⚠ Warning

Do not place handset, battery or Charger in/on ovens, microwave ovens, pressure cookers, induction stoves or other cooking appliances.

Battery may leak, overheat, burst or ignite. Handset/Charger may overheat, emit smoke, ignite, malfunction, etc.

Prohibited

Keep handset off and Charger disconnected near gas stations or places with fire/explosion risk.

Handset use near petrochemicals or other flammables may cause fire/explosion.
To prevent fire or explosion, do not use handset near gas or fine particles (coal, dust, metal, etc.).

Compulsory

Do not apply strong shocks or impacts.

Do not drop/throw handset or related hardware. Battery may leak, overheat, burst or ignite, resulting in fire, electric shock, malfunction, etc.

Prohibited

If there is unusual sound/odor, smoke or any other abnormality:

Continued use may cause fire, electric shock, etc.; grasp plug to disconnect Charger from connector.

Compulsory

Keep liquids (water, pet urine, etc.) or conductive material (pencil lead, metallic strip, metal jewelry, etc.) away from Charging terminals, External Device.

Prohibited

May cause short circuit, resulting in fire, malfunction, etc.

⚠ Caution

Do not place handset or related hardware on unstable surfaces.

Prohibited

Handset or related hardware may fall, resulting in injury, malfunction, etc.; be especially careful when Vibration is set or while charging.

Keep handset and related hardware out of infants' reach.

Compulsory

Infants may choke from swallowing handset or related hardware or be injured, etc.

If your child is using handset and related hardware, explain all instructions and supervise usage.

Compulsory

Misuse may cause injury, etc.

Battery

⚠ Danger

Read battery label to confirm battery type; use/dispose of battery accordingly.

Display	Battery Type
Li-ion00	Lithium-ion

Do not dispose of battery in fire.

Prohibited

Battery may leak, burst, ignite, etc.

Do not damage or subject battery to strong impacts or shocks (from nails, hammers, feet, etc.).

Prohibited

Battery may leak, overheat, burst, ignite, etc.

Keep wire or other metal objects away from battery terminals. Do not carry/store battery with conductive material (pencil lead, metallic strip, metal jewelry, etc.).

Prohibited

Battery may leak, overheat, burst, ignite, etc.

If battery fluid gets in eyes, do not rub; rinse with water and consult a doctor immediately.

Compulsory

Eyes may be severely damaged.

⚠ Warning

If battery fluid contacts skin or clothes, discontinue handset use and rinse with clean water immediately.

May cause skin damage.

Compulsory

If battery does not charge properly, stop trying.

Battery may leak, overheat, burst, ignite, etc.

Compulsory

If there is abnormal odor, excessive heat, discoloration or distortion, remove battery, being careful not to burn or injure yourself. Avoid fire sources.

Continued use may cause battery to leak, overheat, burst, ignite, etc.

Compulsory

⚠ Caution

Do not dispose of an exhausted battery with ordinary refuse.

Tape over battery terminals before disposal. Take battery to a SoftBank Shop, or follow the local disposal regulations.

Prohibited

Handset

⚠ Warning

Do not use handset while driving or cycling.

Accidents may result.
Phone use while driving or cycling is prohibited by law and subject to a penalty; park in a legal parking space beforehand.

Prohibited

Power off near electronic devices employing high precision control systems or weak signals.

May cause electronic malfunctions, etc. Be especially careful near the following devices:
Hearing aids, implanted pacemakers/defibrillators and other electronic medical equipment; fire alarms, automatic doors and other automatic control devices.

Compulsory

Because handset radio waves may impair aircraft operations, please power off handset while aboard.

When handset use aboard aircraft is allowed, please follow instructions of airline personnel.

Compulsory

Users with a heart condition should adjust ringtone Vibration and Volume as needed.

May cause heart damage.

Compulsory

If thunder is heard while outdoors, turn power off; find cover.

There is a risk of lightning strike or electric shock.

Compulsory

Do not look into Infrared Port during Infrared transmissions.

Eyesight may be affected.

Prohibited

⚠ Caution

Do not use handset when it may affect a vehicle's electronic equipment.

Handset use inside vehicles may cause electronic equipment to malfunction, resulting in accidents.

Prohibited

If you experience any skin irritation associated with handset use, discontinue handset use and consult a doctor.

Metal and other materials may cause skin irritation, rashes, or itchiness depending on your physical condition.
For materials, see "Materials & Finishing" (➔P.14-16).

Compulsory

Keep handset away from magnetic cards, etc.

Data on bank cards, credit cards, telephone cards, floppy disks, etc. may be lost.

Prohibited

Do not swing handset by strap.

May harm self or others; strap may break, resulting in injury or handset malfunction/breakage.

Prohibited

Handset may become hot while in use, especially at high temperature.

Prolonged contact with skin may cause burn injuries.

Compulsory

Always maintain some distance from Speaker while ringtones, music or other handset sounds play.

Excessive volume may damage ears or hearing.

Prohibited

Moderate handset volume when using Earphone Microphone.

Excessive volume may damage ears or hearing.

Compulsory

Charger (Sold Separately)

⚠ Warning

Do not cover/wrap Charger while charging.

Charger may overheat, resulting in fire, malfunction, etc.

Prohibited

Use only the specified voltage.

Non-specified voltages may cause fire, malfunction, etc.

- AC Charger (sold separately): AC 100V-240V (wall sockets only).

Prohibited

Leave Charger unplugged during periods of disuse; grasp plug to disconnect it.

May cause electric shock, fire or malfunction.

Disconnect Power Source

If liquids (water, pet urine, etc.) seep inside Charger, grasp plug from outlet and disconnect Charger immediately.

May cause electric shock, smoke/fire.

Disconnect Power Source

If plug is dusty, grasp it and disconnect Charger, then clean with a dry cloth.

Fire may result.

Compulsory

Plug Charger firmly into the outlet, keeping the plug and Charger charging terminals away from conductive material (pencil lead, metallic strip, metal jewelry, etc.).

May cause electric shock, short circuit, fire, etc.

Compulsory

Do not touch Charger plug with wet hands.

May cause electric shock or malfunction, etc.

Do Not Use Wet Hands

Do not touch Charger if thunder is heard.

May cause electric shock, etc.

Prohibited

⚠ Caution

Grasp plug and disconnect Charger from outlet before cleaning.

May cause electric shock, etc.

Disconnect Power Source

Always grasp plug (not cord) to disconnect Charger from outlet.

Pulling the plug by cord may damage cord, causing electric shock, fire, etc.

Compulsory

Do not subject Charger (sold separately) to strong shocks or impacts while it is plugged into the outlet.

May cause malfunction or injury.

Prohibited

Handset Use & Electronic Medical Equipment

This section is based on "Guidelines on the Use of Radio Communications Equipment such as Cellular Telephones and Safeguards for Electronic Medical Equipment" (Electromagnetic Compatibility Conference, April 1997) and "Report of Investigation of the Effects of Radio Waves on Medical Equipment, etc." (Association of Radio Industries and Businesses, March 2001).

⚠ Warning

Persons with implanted pacemaker/defibrillator should keep handset more than 22 cm away.

Compulsory

Radio waves may interfere with implanted pacemakers or defibrillators.

If you intend to use electronic medical equipment other than implanted pacemaker/defibrillator outside medical facilities, consult the vendor on radio wave effects.

Compulsory

Radio waves may interfere with electronic medical equipment.

Observe these rules inside medical facilities to avoid effects of radio waves on electronic medical equipment:

Compulsory

- Do not enter an operating room or an Intensive or Coronary Care Unit while carrying a handset.
- Keep handset off in hospitals; cancel the setting that turns handset power on automatically (alarm, etc.) beforehand.
- Even in lobbies or other places where handset use is permitted, keep handset off near electronic medical equipment.
- Obey medical facility rules on mobile phone use.

Power off in crowds/trains. Persons with implanted pacemaker/defibrillator may be near. Cancel auto power on settings (alarm, etc.) beforehand.

Compulsory

Radio waves may interfere with implanted pacemakers or defibrillators causing such devices to malfunction.

General Notes

General Use

- SoftBank Mobile is not liable for any damages resulting from accidental loss/alteration of any data on handset/Memory Card. Please keep separate records of Phone Book entries, etc.
- Handset transmissions may be disrupted inside buildings, tunnels, or underground, or when moving into/out of such places.
- Use handset without disturbing others.
- Handsets are radios as stipulated by the Radio Law. Under the Radio Law, handsets must be submitted for inspection upon request.
- Handset use near landlines, TVs or radios may cause interference.
- **Beware of Eavesdropping.**
  Because this service is completely digital, the possibility of signal interception is greatly reduced. However, some transmissions may be overheard.
  - **Eavesdropping**
    Deliberate/accidental interception of communications constitutes eavesdropping.

Inside Vehicles

- Never use handset while driving.
- Do not park illegally to use handset.
- Handset use may affect a vehicle's electronic equipment.

Aboard Aircraft

- Radio waves may impair aircraft operations; power off while aboard aircraft. If handset use is allowed, follow airline personnel instructions.

Function Usage Limits

- Handset replacement or service cancellation disables these functions:
  - Camera
  - Media Player
- After a long period of disuse, these functions may be unusable; establish a network connection to restore usability.

Handset Care

- If handset is left with no battery or an exhausted one, data may be altered/ lost. SoftBank Mobile is not liable for any resulting damage.
- Use handset between 5°C - 35°C. Avoid extreme temperatures/direct sunlight.
- Exposing lens to direct sunlight may damage color filter affecting image color.
- Do not drop or subject handset to shocks.
- Clean handset with a dry, soft cloth. Using alcohol, thinner, etc. may damage it.
- Never disassemble or modify handset.
- Avoid scratching Display.
- When using headphones, moderate the volume to avoid sound bleed.
- Heavy objects or excessive pressure should be avoided. This may cause malfunction or injury.
  - Do not sit down with handset in pocket.
  - Do not place heavy objects on handset in a bag.
- Insert only specified devices into Headphone Port. Malfunction or damage may result.
- Always turn power off before removing battery. If battery is removed while saving data or sending mail, data may be lost, changed or destroyed.
- Air Vent is located in the upper right corner of Display. Keep Air Vent clear during handset use; do not cover it with protective film, etc.; may affect sound quality.

Keypad Surface Swelling

- Keypad surface might swell up due to drastic atmospheric changes (at high altitudes, aboard high-flying aircraft, etc.) when Battery Cover is closed. This is normal. Keypad will return to its original shape.
- Open Port Cover to release air that may be trapped inside handset.
- Carefully close Battery Cover to avoid trapping excess air inside handset.
- When using a swollen Keypad, take care to avoid damaging protrusions. Original shape will return.

Optical Sensor

- Detects ambient light level to adjust Display brightness.
- Display brightness automatically adjusts with ambient light level.
- To manually adjust brightness, see "Adjust Display Brightness" (➲P.13-6).

Water & Dust Resistance

001SC Water & Dust Resistance

- **001SC complies with IPX5 (former JIS protection level 5) [1] and IPX7 (JIS protection level 7) [2] water protection standard as well as IP5X (JIS protection level 5) [3] dust protection standards, with Port Covers closed and Battery Cover locked firmly.**

  [1]IPX5 compliant means that this handset continues to function as a phone after being subjected to a water jet (approximately 12.5 liters/min.) discharged from a nozzle (inner diameter: 6.3 mm), from all directions (approximately 3 m from handset) for at least three minutes.

  [2]IPX7 compliant means that this handset continues to function as a phone and no water seeps inside after being gently lowered into a tank filled with still tap water (at room temperature) to the depth of 1 m, and immersed at the bottom for approximately 30 minutes.

  [3]IP5X compliant means that a handset continues to function as a phone and its integrity is maintained after being agitated in a device containing dust of 75 µm or smaller in diameter for eight hours, then removed from the device.
- **Warranty does not cover malfunctions resulting from misuse.**
- **001SC is compliant with IPX5, IPX7 and IP5X water/dust protection standards. However, ingress of dirt, sand, mud, metal powder, food, soft drink, etc. may cause malfunction.**

Usage Notes

- Lock Battery Cover and close Port Covers firmly. Foreign matter (hair, sand, fibers, etc.) trapped between contact surfaces may cause seals to fail and expose internal parts to water.
- Leaving Battery/Port Covers open may expose handset to moisture, causing malfunction/electric shock. Power handset off, and remove battery.
- If handset gets wet, moisture might get between Keypad and hinges. Wipe off handset with a clean, dry cloth. Do not leave handset wet.
- To prevent water from getting inside a handset exposed to rain or touched with wet hands, do not open Battery Cover or Port Cover. After handset has completely dried out, slowly open Battery Cover or Port Cover. If liquid does get inside, do not use handset; power off, remove battery, and take it to a SoftBank Shop.
- To prevent water from getting inside handset when areas around Port Cover or Battery Cover are wet, wait until handset has completely dried, before slowly opening and closing covers.
- Handset is resistant to fresh/tap water at room temperature (5°C - 35°C) only.

Precautions

- Do not expose handset to liquids (soaps, detergents, soapy water, seawater, pool water, hot spring water, boiling water, chemicals, or perspiration, etc.) other than fresh/tap water. Do not expose handset to sand or mud.
- If handset is exposed to liquid other than fresh/tap water, immediately rinse off handset with water. Position handset approximately 10 cm from tap or shower head and clean with a low pressure flow (less than six liters per minute, at room temperature (5°C - 35°C)). Hand wash (do not use brushes or sponges) with Battery Cover in place and locked, and Port Cover closed.
- Do not expose handset to bathtubs or swimming pools. Do not use handset (open or close handset, or use Keypad) in water.
- Handset is not resistant to water at high pressure. Do not expose handset to tap or shower water flowing faster than six liters per minute, drop it into water, or immerse it.
- Do not expose handset to extreme humidity for long periods; avoid prolonged use in bath/shower rooms.
- Use handset within 5°C - 35°C (up to 40°C for temporary use in bath/shower rooms, etc.) and 35% - 90% humidity.
- Handset is not heat-resistant. Do not use in saunas. Avoid hot air from dryers, etc.
- Avoid extreme temperatures (e.g., near stoves, inside refrigerators, etc.).
- Volume may be low when Microphone/Earpiece/Speaker is wet; dry handset before use. After drying out, the volume will return to normal.
- Avoid placing handset directly on sand. Sand may penetrate Earpiece, Speaker, etc., resulting in low volume.
- Do not move handset directly from a cold place to a warm, humid place; condensation may occur. Should this happen, let handset dry naturally, at room temperature.
- Handset does not float.
- Keep handset out of heavy rain.
- Do not let liquid-exposed handset remain wet; exposure to cold may freeze liquid causing malfunctions.
- Keypad response may lag when ambient temperature falls below 0°C.

Maintaining Waterproof & Dustproof Performance

- Do not subject handset to strong shocks or impacts; do not poke Air Vent, Microphone, Earpiece, Speaker, etc. with a cotton swab or sharp object; do not insert foreign objects.
- Port Cover and gasket play the important role of maintaining waterproofness. Do not remove or damage them. In addition, do not allow foreign particles to adhere to them.
- Do not insert sharp objects into Port Cover gaps; may damage gasket and affect water resistance.
- Do not leave Port Cover bent back for prolonged periods of time to plug in Earphone Microphone or Charger. It might deform Port Cover affecting waterproofing.

- If Port Cover gasket is damaged or deformed, replace it with a new one.
- To maintain water resistance, replace gaskets every two years regardless of their condition. For gasket replacements, contact a SoftBank Shop.
- Damaged Battery/Port Cover affects water resistance; contact a SoftBank Shop.

Charging Precautions

- Battery and optional accessories are not waterproofed. Avoid exposure to liquids or high humidity (e.g., precipitation, bath/shower room, restroom, etc.); may cause fire, electric shock or damage.
- Never charge battery while handset is wet; may cause fire or damage due to electric shock or short-circuit.
- Close Port Cover firmly after charging via External Device Port.
- Do not touch Charger with wet hands. Electric shock may occur.
- Do not use Charger in rooms in which water is regularly used (kitchen, bath/shower room, etc.); may cause fire or electric shock.

Before cleaning handset, see "Cleaning Handset" (➔P.14-5).
If handset gets wet, see "Drying Handset" (➔P.14-5).
If Port Cover becomes detached, see "Reattaching Port Cover" (➔P.14-6).

Copyrights

Copyright laws protect sounds, images, computer programs, databases, other materials for copyright holders. Duplicated material is limited to private use only. Use of materials beyond this limit or without permission of copyright holders may constitute copyright infringement, and be subject to criminal punishment. Comply with copyright laws when using images captured with handset camera.
The software contained in handset is copyrighted material; copyright, moral right, and other related rights are protected by copyright laws. Do not copy, modify, alter, disassemble, decompile, or reverse-engineer the software, and do not separate it from hardware in whole or part.

SAR Certification

001SC meets the technical standards of Ministry of Internal Affairs and Communications (MIC) regarding radio wave absorption by a human body.

These technical standards are established on a scientific basis to prevent radio waves emitted from wireless devices such as mobile phones that are used close to human head from affecting human health. These standards assure that the SAR (Specific Absorption Rate), an indicator of the amount of average energy absorbed in the side of a human head, must not exceed the permissive value of 2 W/kg*. This value includes a substantial safety margin designated to assure the safety of all persons, regardless of age and physical size. The value is equal to the international guideline recommended by International Commission on Non-Ionizing Radiation Protection (ICNIRP) that has a cooperative relationship with the World Health Organization (WHO).

The highest SAR value for 001SC is 0.719 W/kg. This value is obtained at its highest permitted power level. While there may be differences in the SAR levels depending on phones, they all meet the MIC's permissible value. Because mobile phones are designed to employ the minimum power level required for the communication with the base station, the SAR of the phone during a call is usually below the maximum value.

For further information about SAR, please see the following Websites:

MIC: http: //www.tele.soumu.go.jp/j/ele/index.htm

ARIB: http: //www.arib-emf.org/

*The guideline is defined by relevant laws and regulations associated with the Radio Law (No. 2 of Article 14 of Ordinance Regulating Radio Equipment).

SoftBank Mobile Body SAR Policy

* Body SAR: The SAR value at the maximum transmission power when continuously talking with handset placed on the body and using earphone-microphone.

** Specific Absorption Rate (SAR): The value measured when having talked continuously for six minutes.

*** Placement on the body: Measurements are taken with the rear of handset facing the body at a distance of 1.5 cm as the ordinary handset position. In order to comply with radio frequency exposure requirements, use an accessory (e.g. belt clip, holster) that does not contain metallic parts to maintain a 1.5 cm separation between the body and handset.

For further information, see the following SoftBank Mobile Website:
http: //www.softbankmobile.co.jp/ja/info/public/emf/emf02.html

European RF Exposure Information

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves recommended by international guidelines. These guidelines were developed by the independent scientific organization ICNIRP and include safety margins designed to assure the protection of all persons, regardless of age and health.

The guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit for mobile devices is 2 W/kg and the highest SAR value for this device when tested at the ear was 0.582 W/kg*. As mobile devices offer a range of functions, they can be used in other positions, such as on the body as described in this user guide. In this case, the highest tested SAR value is 0.246 W/kg.

As SAR is measured utilizing the devices highest transmitting power the actual SAR of this device while operating is typically below that indicated above. This is due to automatic changes to the power level of the device to ensure it only uses the minimum level required to reach the network.

The World Health Organization has stated that present scientific information does not indicate the need for any special precautions for the use of mobile devices. They note that if you want to reduce your exposure then you can do so by limiting the length of calls or using a hands-free device to keep the mobile phone away from the head and body.

*****The tests are carried out in accordance with international guidelines for testing.

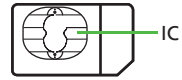
USIM Card

Before Using USIM Card

Universal Subscriber Identity Module (USIM) Card is an IC card containing customer and authentication information, including handset number and limited storage for Phone Book entries and SMS. Install USIM Card to use handset; power off handset to insert/remove USIM Card.



USIM Card

Insert USIM Card into another compatible handset to access SMS and Phone Book entries saved on USIM Card. Note the following precautions regarding USIM Card usage and care (see USIM Card User Guide for details):

- Avoid using excessive force when inserting/removing USIM Card.
- SoftBank Mobile is not liable for damages resulting from inserting USIM Card into IC card readers or other third party devices.
- Always keep USIM Card IC chip clean.
- Clean USIM Card IC chip with a soft, dry cloth.
- Do not attach labels to USIM Card; malfunction may result.

Note

- USIM Card is SoftBank Mobile property.
- If USIM Card is lost or damaged, you will be charged for its reissue.
- Return USIM Card to SoftBank Mobile upon termination of subscription.
- Returned USIM Cards are recycled.
- USIM Card specifications may change without prior notice.
- If USIM Card or handset with USIM Card inserted is lost or stolen in Japan or abroad, immediately contact SoftBank Mobile Customer Center, General Information (➲P.14-29) to suspend service.
- Handset/USIM Card repairs, replacement, or upgrades may deactivate Chaku-Uta®, Chaku-Uta Full® or video files on handset/Memory Card.
- Back up USIM Card files. SoftBank Mobile is not liable for lost files.

USIM Card Installation

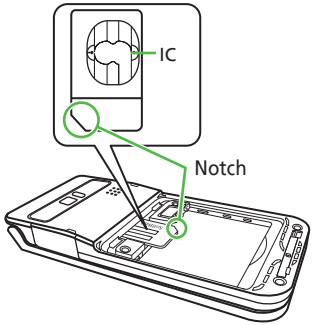
Note

- Inserting USIM Card with excessive force may damage it or handset.
- Do not misplace a removed USIM Card.
- To prevent damaging it, avoid touching IC chip when inserting or removing USIM Card. Do not touch battery contacts.
- Do not remove USIM Card while handset is powered on; handset may restart.

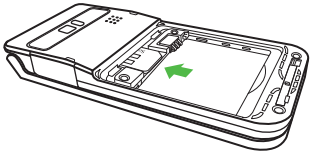
Inserting

1 Remove Battery Cover (➲P.1-8)

2 With IC chip down, insert USIM Card

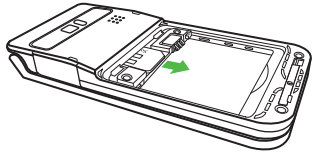


3 Push in USIM Card



Removing

1. **Remove Battery Cover/battery (➔P.1-8)**
2. **Gently slide USIM Card out**



Battery & Charger

Before Using Battery/Charger

Charge battery before first use of handset or after long periods of disuse.

Note

- **Use specified Charger only.**
- **Battery must be inside handset to charge.**
- **When not in use, unplug Charger from outlet.**

Battery

- Long periods of disuse may affect battery's ability to hold a full charge. Charge battery at least once every six months while not in use. Otherwise, battery may become unusable.
- Depending on usage, bulges may appear near end of battery life; this does not affect safety.
- Handset uses a lithium-ion battery; charge battery anytime without damaging its ability to hold a charge.
- Do not charge battery under the following conditions:
  - In ambient temperatures beyond 5°C - 40°C
  - In high levels of humidity, vibration or dust (may cause malfunction)
  - Near a radio receiver (may cause feedback)
- Handset or Charger may warm while charging. This is normal, however, should they become very hot to touch, stop charging and contact SoftBank Mobile Customer Center, General Information (➔P.14-29).
- Battery is a consumable; replace it if operating time shortens noticeably.

Battery Life

Battery time/life may be reduced by any of the following:

- Environment
  - Storing/using handset beyond 5°C - 40°C
  - Using handset in poor signal conditions
  - Debris on handset, battery or Charger Port
- Usage
  - Camera use
  - Media Player use
  - Slide Show use
  - Heavy use (e.g. messaging, web browsing)
- Settings
  - Increasing ***Brightness*** or ***Duration***
  - Using Media Player with Backlight set to ***Always On***

Battery Disposal

Do not dispose of exhausted batteries with ordinary refuse. Tape over battery terminals before disposal or take to a SoftBank Shop. Follow any and all regulations regarding battery disposal.
Lithium-ion batteries are recyclable.

When Battery Runs Out

When battery is weak, a warning appears and handset beeps. Charge or replace battery; otherwise handset will automatically turn off.

Battery Installation

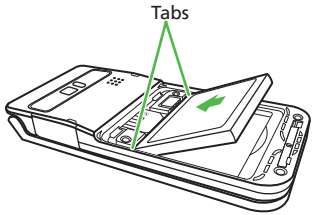
Inserting

Note

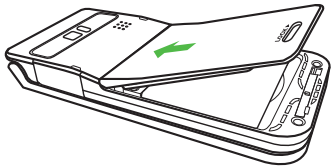
- Gently insert battery to avoid damaging handset tabs.
- Without cover, battery may fall out. Attach Battery Cover before use.
- Strong impacts may damage Battery Cover.
- Battery Cover Installation

  Release Battery Cover Lever to access battery.

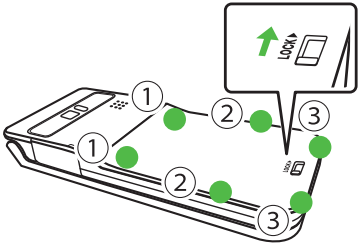
1. Remove Battery Cover/battery (➔P.1-8 Removing 1 and 2)
2. Fit battery into handset as shown



3. Align Battery Cover



4. Press ●① using both hands
5. Holding ●① in place, press ●② and ●③ to close completely
6. Slide Battery Cover Lever to "Lock"



Note

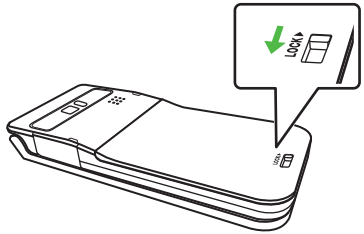
Maintaining Waterproofing & Dustproofing

If handset is wet, wipe it off with a clean, dry cloth before removing Battery Cover or Port Cover. Clean foreign objects off gasket or handset before replacing Battery Cover or Port Cover.

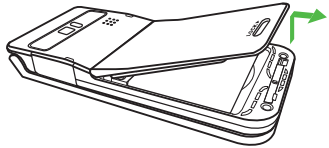
Removing

Always turn handset off before removing battery.
Never remove battery while Charger is connected.

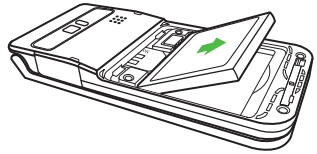
1 Release Battery Cover Lever



2 Lift Battery Cover up and remove as shown



3 Lift battery up and remove as shown

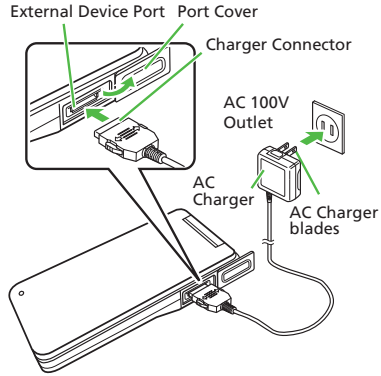


Charge Battery

- Use specified AC Charger ZTDAA1 (sold separately). In this guide, ZTDAA1 is referred to as "AC Charger."
- If handset is on while Charger is connected, battery indicator shows charge level, charging as follows: → → . flashes when battery is fully charged. If handset is off, ***Charging***... appears while charging and when battery is charged, ***Battery full*** appears. External Light illuminates in red while charging.
- An empty battery requires approximately 120 minutes to charge with power off. Charging time may vary with ambient temperature.

AC Charger

1 Open Port Cover; with label down, insert Charger Connector into External Device Port



2 Extend AC Charger blades and plug it into an AC 100V outlet

3 When battery is charged, disconnect handset, close Port Cover, and unplug AC Charger

USB Charge

Connect handset to PC via USB Cable to charge battery.

1. **Open Port Cover; with label down, insert USB Cable Connector into External Device Port**
2. **Insert USB Plug into PC USB port**
3. **When battery is charged, disconnect handset, close Port Cover, and remove USB Plug**
   - USB charging takes longer; charging time varies according to the PC. A weak battery may not charge via USB.

Power On/Off

Power On

1. **Press ⏻ until Display illuminates**
   - "Please wait..." and precautions for maintaining waterproofness appear.

Standby Display

- After powering on, select menu format (➔P.2-3).
- To confirm handset phone number, press ■ → 0 ｳﾞ. Your phone number appears in Account Details. Edit or use contents (➔P.1-10).
- When handset is left open and idle, Display automatically shuts down to conserve power. Adjust Backlight time (➔P.13-6).

- The first time Messaging, Yahoo!, etc. is used or a function requiring a network connection is activated, Retrieve NW Info confirmation appears. Choose ***Yes*** and follow onscreen instructions.
  - Retrieve NW Info confirmation appears after replacing USIM Card or executing ***All reset***.
  - Retrieving Network Info sets date and time. Network Services (SMS, S! Mail and Yahoo! Keitai, etc.) are available.
  - Retrieve Network Info manually (➔P.13-23).
  - This guide describes operations with date and time set unless noted otherwise.

Power Off

1. **Press ⏻ until Display goes dark**
   - SoftBank logo appears and handset powers off.

Note

- **For proper shut down, press ⏻ until Display goes dark.**

Account Details

Save your name, mail address, blood type, and other information in Account Details.

Viewing Account Details

1 ■ → 0

- Default: Only handset phone number appears.
- Alternatively, in Standby, press ■ → ***Phone*** → ***My details***.

Editing Account Details

Example: Save name, phone number, mail address

- See "Adding Information to Phone Book Entry" (➲P.2-16) to save other information.

1 ■ → 0 → ✉ **(Edit)**

2 **Select Last name field → Enter last name**

3 **Select First name field → Enter first name**

4 **Select Reading: Last name field → Edit reading as required**

5 **Select Reading: First name field → Edit reading as required**

6 **Select Phone number field → Enter number → *Private/Business/Home/Office/Fax/Video call/Others***

7 **Select E-mail address field → Enter mail address → *Private/Home/Office/Others***

8 ✉ **(Save)**

- See "Text Entry" (➲P.2-6) to enter text.
- Default: Handset phone number appears.

Advanced

Advanced Settings ☞P.1-13

- Copying Item in Account Details
- Sending Account Details
- Saving in Data Folder
- Resetting Account Details

Handling Precautions (Key Lock)

Note these precautions when handling handset.

- Activate Key Lock before putting handset in a pocket.
- When carrying AC Charger, retract plug blades. Do not pull/twist power cord; doing so may damage it.
- Activate Key Lock to prevent accidental operation when carrying handset in a bag or pocket, etc.

1 ▣ **(1 + seconds)**

- Key Lock activates.

- When Key Lock is set, appears at top of Display. If any key is pressed, a guidance to cancel Key Lock appears.
- To cancel Key Lock, press ▣ (1+ seconds).

Minding Mobile Manners

Please take care not to disturb others when using handset.

- Turn your handset off in theaters, museums, and other places where silence is the norm.
- Keep your handset off aboard airplanes*, inside hospitals, or in other places where handset use is prohibited.
  *If handset use is permitted, follow airline instructions for proper use.
- Refrain from using your handset in quiet places such as restaurants, hotel lobbies, or elevators.
- Observe announcements or posted instructions regarding handset use aboard trains, etc.
- Refrain from handset use that interrupts the flow of pedestrian or vehicle traffic.

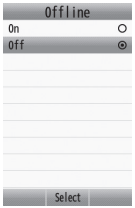
Handset offers two manner-related modes.

- Offline Mode
  Temporarily suspends all handset transmissions. Other functions may be used.
- Manner Mode
  Mutes handset sounds and activates Vibration for all alerts, tones, and Alarms. Use Manner Key to activate or cancel Manner mode.
  In addition to Manner, handset features Normal, Drive, Meeting and Outdoor as the set Ringtone or operation sound.

- Activating Offline Mode or Manner mode mutes ringer. Alternatively, set Ringtone volume or Vibration (➲P.13-4).

Offline Mode

1 ▣ → ***Settings*** → ***Call settings*** → ***Offline*** → ***On*** **or** ***Off***



- Power off handset in Offline Mode, confirmation appears. Choose ***Yes*** to power on handset in Offline Mode.

Manner Mode

Cancel settings for Manner mode from current setting mode.

1 (#) **(1 + seconds)**

- When Manner mode is active, appears.
- Even if Manner mode is active, shutter click sounds for Camera.
- Press (#) for 1+ seconds to cancel Manner mode. Canceling Manner mode, returns handset to mode set before Manner was activated.

Changing Mode Settings

Handset features five modes, including Manner.

1 (✳ Aa) (1 + seconds)

2 ***Normal*, *Manner*, *Drive*, *Meeting*, or *Outdoor***

- Select mode by usage; edit Normal mode or Manner mode settings as required (➲P.14-10).

Mode	Description
Normal Mode	All Sound & Alert settings apply
Manner Mode	Mutes handset system sounds
Drive Mode	Mutes ringer; plays Driving Message and activates Answering Machine for calls
Meeting Mode	Mutes Ringtones & system sound
Outdoor Mode	Maximizes tone volume

Advanced

Settings

- Set Keypad Light Illumination Mode (☞P.13-3)
- Set Phone Sounds (☞P.13-4)
- Set System Sounds (☞P.13-4)
- Set External Light Color for Incoming Transmissions (☞P.13-4)
- Set External Light Color for Notification (☞P.13-5)
- Set External Light Color When Handset is Closed (☞P.13-5)
- Activate/Cancel Offline Mode (☞P.13-9)
- Switch Manner Mode (☞P.13-7)

Security Codes

Phone Password, Center Access Code (Network Password) are required to use handset.

Note

- **Write down Phone Password and Center Access Code (Network Password). If you lose a code, contact Customer Service (➲P.14-29).**
- **Do not reveal Phone Password and Center Access Code (Network Password) to others. SoftBank Mobile is not liable for damage caused by misuse of these codes by others.**
- **Entering incorrect Network Password three consecutive times locks Call Barring settings. To resolve, Network Password and Center Access Code must be changed. For details, contact SoftBank Mobile Customer Center, General Information (➲P.14-29).**
- **If Center Access Code (Network Password) was changed, to set Call Barring, input the new Center Access Code (Network Password).**

Phone Password

The four-digit number (Default: 9999) is required to operate/change some handset functions.

- Entered Phone Password digits appear as *.
- If incorrect, an error message appears. Try again.
- Phone Password can be changed on handset (➲P.10-3).

Center Access Code (Network Password)

Four-digit number specified at subscription; required for changing service subscriptions, for activating optional services, or for operating handset from landlines.

For changing Center Access Code (Network Password), contact SoftBank Mobile Customer Center, General Information (➔P.14-29).

PIN Code

USIM Card features two security codes: PIN and PIN2.

PIN Code

Use PIN (four- to eight-digit) to prevent unauthorized use of handset by others.

- Modify PIN with handset (➔P.10-3).
- When PIN Lock is activated, PIN entry is required each time handset is turned on or whenever USIM Card is re-inserted (➔P.10-4).

PIN2 Code

PIN2 (four- to eight-digit) is required for resetting ***Call time & cost***, etc.

- Modify PIN2 with handset (➔P.10-3).

Canceling PIN Lock (PUK/PUK2 Code)

Incorrectly entering PIN or PIN2 three consecutive times activates PIN Lock, limiting function access. Enter PUK (PIN Unlocking Key) Code to cancel PIN Lock.

For more information, contact SoftBank Mobile Customer Center, General Information (➔P.14-29).

Note

- **Entering PUK incorrectly ten consecutive times activates PUK Lock. Purchase USIM Card reissue at a SoftBank Shop.**

USIM Password

Use this code to authenticate a USIM Card. If USIM Password matches, USIM Card is valid. Set ***USIM lock*** to ***On*** to set USIM Password.

Accessing Functions

Use these methods to access handset applications:

- Shortcuts
- Main Menu (Standard Menu)
- Main Menu (Simple Menu)
- Shortcut Keys

Using Shortcuts

Select ***Call***, ***Messaging***, ***Yahoo!***, or ***Media***. Use multiple functions at the same time (e.g. use the Internet during a call).

1 In Standby, or active function, [Shortcuts]

2 [Navigation] to highlight item → [●] (Select)

- To exit an active function, open the window and press [End].
- To exit all active functions, highlight [Exit all] at Shortcuts and press [●] (Yes).

- When you exit all active functions, a confirmation may appear for some functions. If a confirmation appears, choose ***Yes***.
- If Camera is active, shortcuts do not appear in text entry window.

Using Main Menu

Using Standard Menu

1 In Standby, [●]

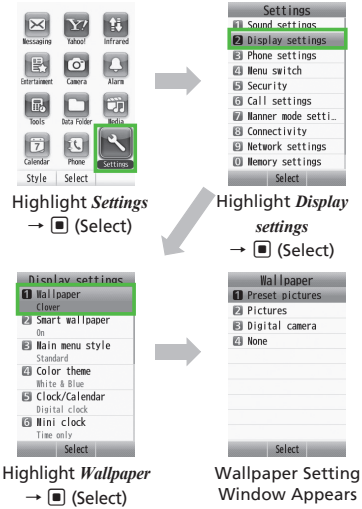
Main Menu

2 Highlight item → [●] (Select)

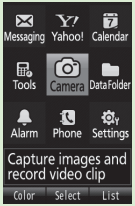
3 Repeat Step 2 to select item

- Press [CLEAR] to return to the previous operation step.
- Press [End] to exit menu. Handset returns to Standby. If multiple functions are active, active window appears.
- Press [End] to cancel operation. Handset returns to Standby or previous window. In some menus, a confirmation appears.
- Speed Dial numbers appear in item or list window. Press corresponding Keypad key to select an item.
- If item title is too long to view, highlight it to scroll title. Adjust scrolling speed (❍P.13-6).

Example: Selecting ***Wallpaper Settings → Display settings → Wallpaper***



• Perform the same operation from simple menu. However, some functions are unavailable.



Toggling Standard Menu/Simple Menu

1 ■ → *Settings* → *Menu switch*

2 *Standard menu/Simple menu*

Using Shortcut Keys

In Standby, use these keys to access functions:

Key		Menu/Function
	Short Press	Messaging menu
	Long Press	Create S! Mail
	Short Press	Yahoo! Keitai main menu
	Long Press	Yahoo! Keitai menu
	Short Press	Activate Camera
	Long Press	Activate Video
	Short Press	Shortcuts
	Short Press	Favorites
	Short Press	Open Call Log (Received)
	Short Press	Open Call Log (Dialed)
	Short Press	Search Phone Book
	Long Press	Add to Phone Book
	Short Press	Main menu
	Long Press	Activate/Cancel Key Lock
	Short Press	Open Call Log (All)

Key		Menu/Function
CLEAR	Short Press	Play Answering Machine
CLEAR	Long Press	Activate/Cancel Answering Machine
* A/a	Long Press	Manner mode setting window
#	Long Press	Toggle Manner mode On/Off

Incoming Settings

Adjust Volume, Ringtone and Vibration settings. Use Ringtone/Vibration pattern to identify caller.

Changing Volume

Select from six volume levels: ***0*** (off) to ***5***.

1 ■ → ***Settings*** → ***Sound settings*** → ***Volume***

2 Select incoming type

3 ◆ to adjust volume → ■ (Select)

• Highlight volume → ✉ (Play) to playback.

Changing Ringtone

Besides presets, get Ring songs, music, or videos via Internet for handset use.

1 ■ → ***Settings*** → ***Sound settings*** → ***Ringtone***

2 Select incoming type

3 Select Ringtone type

4 Select Ringtone file

• Highlight file name → ✉ (Play) to playback.
• Handset does not support .mmf files. Opening an .mmf file may cause handset to malfunction.

Setting Vibration

Select Vibration Pattern from following options: ***Off***, ***Pattern 1*** to ***Pattern 5***.

1 ■ → ***Settings*** → ***Sound settings*** → ***Vibration***

2 Select incoming type

3 Select Vibration

■ **To Cancel Vibration**
Off

■ **To Select Vibration Pattern**
Pattern 1 through ***Pattern 5***

• Highlight file name → ✉ (Play) to view a pattern.

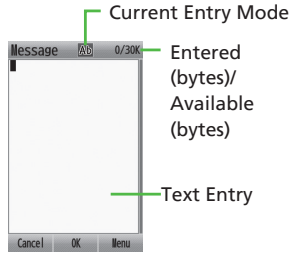
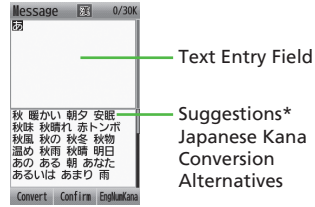
漢	Kanji or Hiragana (➔P.2-7)	※	Symbols (double-byte) (➔P.2-8)
力	Katakana (double-byte) (➔P.2-8)	#@	Symbols (single-byte) (➔P.2-8)
ｶﾅ	Katakana (single-byte) (➔P.2-8)	絵	Pict. (Common) (➔P.2-8)
A	Alphanumerics (double-byte) (➔P.2-8)	絵	Pict. (All) (➔P.2-8)
Ab	Alphanumerics (single-byte) (➔P.2-8)	가	Hangul (➔P.2-10)
顔	Emoticons (➔P.2-8)	a	Alphanumerics (double-byte, lower case) (➔P.2-8)
1	Number (double-byte) (➔P.2-8)	ab	Alphanumerics (single-byte, lower case) (➔P.2-8)
12	Number (single-byte) (➔P.2-8)	履歴	History (➔P.2-8)

See "Changing Entry Mode" (➔P.2-7) about toggling Entry mode.

Text Entry Window



Suggestions



*Suggestions do not appear in Katakana, Alphanumeric (double-byte), Number, or Hangul entry mode. If ***Prediction*** is set to ***Off*** in Kanji/Kana entry mode, press [✉] (Convert) / [Y!] (EngNumKana) to convert text.

- Suggestions differ by season or time of day.
- Only numbers can be entered in Date & Time or Alarm time. Text entry window does not appear. Enter numbers directly in Text entry field.
- When Voice Call arrives while entering text, simply answer the call. When the call ends, text entry window returns. When Alarm is activated, end Alarm to return to text entry window.

Changing Entry Mode

Toggle text entry mode: Kanji, Hiragana, Katakana (single-/double-byte), Alphanumerics (single-/double-byte), Symbols (single-/double-byte), Pictograms, Emoticons or Hangul.

1 In text entry window, ●

2 Select entry mode

- In text entry window, press ▲ to toggle to history/Pict. (Common). Press ● / ▲ to toggle history/Pict. (Common)/Pict. (All)/Symbol (Full)/Emoticon.

Kana/Kanji

Use predictive entry to convert and enter characters. Alternatively, directly convert entered Hiragana. Katakana or pictograms may appear in Suggestions.

Example: Enter *鈴木*

1 In text entry window, ●

2 *漢かな*

3 3 (three times)

- *す* is entered.

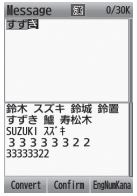
4 ▶

- To enter same character continuously, ▶ to move cursor to the right.

5 3 (three times) → ✳

- *ず* is entered.

6 2 (twice)



- *き* is entered.

7 Highlight *鈴木* → ■ (OK)

- After entering hiragana, press ✳ to add ゛ or ゜.
- After entering hiragana, press ✳ to toggle case.
- Press C to cancel a misentry.
- If you over-toggle character, press ↩ to toggle in reverse.
- To set as Hiragana, press ■ (Confirm).
- If no suggestions appear, press ✉ (Convert) → ● to change conversion range → Highlight conversion alternatives → ■ (Select) → Repeat steps for other characters.
- If conversion fails, try another reading. For multiple Kanji words, try converting characters separately.
- While suggestions appear, press ✉ (Convert) for conversion alternatives. While conversion alternatives appear, press ✉ (Predict) to return to Suggestions.

Katakana/Alphabet/Number

Use the suggested characters shown in text entry window to input text, when entering single-byte characters.

1 In text entry window, [Camera] → カナ/かな/Ab/Ab/12/12

2 Enter katakana/alphabet/number

- After entering katakana, press [*] to add ゛ or ゜.
- After entering katakana, press [*] to toggle case.
- In Alphabet entry mode ([A], [Ab], [a], [ab]), enter a character then press [*] to toggle case.
- Press [CLEAR] to cancel a misentry.
- If you over-toggle character, press [#] to toggle in reverse.
- To enter same character continuously, press [▶] to move cursor to the right.
- In Kanji/Kana entry mode, enter characters and press [Y!] (EngNumKana) to toggle Katakana/Alphanumerics/Numbers entry mode.
  Example: Enter くも and press [Y!] (EngNumKana), クモ, ***C***, or ***22277777*** appears in Suggestions.

Symbol

For available symbols, see "Symbols" (➔P.14-13).

1 In text entry window, [Camera] → ！＠＃ /!@#

- Press [↑] → [Camera] / [↑] to toggle text entry mode.
- Press [✉] (Prev.page) / [Y!] (Next page) until symbol appears.

2 Select character

- Enter symbols continuously. To cancel Symbols entry, press [CLEAR].

- Once entered symbols remain as history and appear in ***All History***.
- In Kanji/Kana entry mode, enter characters and press [✉] (Convert) to convert to symbols.
  Example: Enter てん and press [✉] (Convert), ， or … appear in Suggestions.

Pictograms/Emoticons

Combine symbols to enter emoticons as well as pictograms (➔P.14-14).

1 In text entry window, [Camera] → *Pictogram/Emoticon*

- Press [↑] → [Camera] / [↑] to toggle text entry mode.
- Press [✉] (Prev.page) / [Y!] (Next page) until pictogram or emoticon appears.

2 Select pictogram/emoticon

- You can continuously enter pictograms and emoticons. To stop entering pictograms or emoticons, press [CLEAR].

- Selecting Pict. (Common) [絵文] is available only in Message window/Subject window. Select [絵文] to send message to non-SoftBank devices.
- Once entered pictograms remain as history and appear in ***All History***.
- In Kanji/Kana entry mode, enter はーと, でんわ and convert to pictograms. Similarly, わーい or えーん can be converted to emoticons.

Line Break

To enter line break in ***Hangul*** entry mode, place cursor at the end of the text.

1 In text entry window, (#) (five times) → ● (OK)

- In ***Symbol (Full)***/***Symbol (Half)*** entry mode, highlight line break → ● (Select).
- Place cursor at the end of the text → Press ▣ to insert line breaks.

- Line breaks cannot be inserted in some entry windows (e.g., Subject window in Messaging).

Entering Space

Entering space varies by Entry mode.

漢かな / カナ / ｶﾅ

1 0 (five times)

- In *漢かな* entry mode, press ● (Confirm) to enter space.

A b /Ab

1 0 (twice)

Symbol (Full)/Symbol (Half)

1 ✣ and highlight → ● (Select)

Hangul

1 0 (three times)

- When Entry mode is *1 2*/*12*/***Pictogram***/***Emoticon***, toggle the above Entry mode and enter.
- When cursor is at the end of a sentence, entering space with ▣ is also available.
- Space cannot be inserted in some entry windows (e.g., Recipient window in Messaging).

Hangul

1 In text entry window, ● → *Hangul*

- If a confirmation appears, press ■ (OK).

2 Enter characters

- Press number keys to enter assigned character units that appear; combine several consonants and vowels.

Consonant Example (Key Assignment)	
ㄱ	4 (once)
ㅋ	4 (twice)
ㄲ	4 (three times)
Vowel Example (Key Assignment)	
아	0 1
야	0 1 2
어	0 2 1
여	0 2 2 1
오	0 2 3
요	0 2 2 3
왜	0 2 3 1 2 1

Using Quick Address List

Save mail addresses/URLs for easy entry.

1 In Mail address or URL entry window or field, ▽ → *Insert* → *Quick address list*

2 Select mail address/URL

Deleting/Editing

1 Move cursor to character, and CLEAR

- When a space is highlighted, the character before the cursor is deleted.
- To delete all characters after cursor, press CLEAR for 1 + seconds. If there are no characters after cursor, all characters are deleted.
- Press ☎ for text entry window exit confirmation.

Advanced

Advanced Settings (☞P.2-15)

Settings

- Set Text Size in Editor (☞P.13-6)

User Dictionary (Japanese)

Save frequently used words/phrases of up to 40 characters; entries appear in Suggestions when Reading is entered.

Editing User Dictionary

1. ● → *Settings* → *Phone settings* → *User dictionary* → *Japanese dictionary/English dictionary*
2. **New entry**
   - If more than one entry is saved in User Dictionary, press ✉ (Add).
3. **Select Word field → Enter word or sentence**
4. **Select Reading field → Enter reading**

5. ✉ **(Save)**

Saving to User Dictionary

1. **In text entry window, ✉ → *Add to dictionary***
2. **Highlight the first character → ● (Start)**
3. **Highlight the last character → ● (End)**

4. ***Japanese dictionary/English dictionary***
5. **Select Reading field → Enter reading**
6. ✉ **(Save)**

- If selecting the range which includes a line break, character strings before the line break are saved.

Phone Book

Create up to 1000 entries. Number of savable items per entry varies by USIM Card. Insert USIM Card into compatible SoftBank handsets to access USIM Card entries.
For savable data for a Phone Book entry, see "Phone Book" (➲P.14-16).

Note

- **Protect Important Information**
  Phone Book entries may be lost/altered if battery is removed or left uncharged for an extended period; accidents/malfunctions may also affect entries. Back up entries and store separately. SoftBank Mobile is not liable for damages from lost information.

- If different USIM Card with saved entries is inserted, copy saved USIM entries to handset, confirmation appears when handset is first powered on. Choose ***Yes*** to copy entries.

Phone Book Window

Phone Book entries (➲P.2-12) are divided into three tabs. Select tabs to view desired information.

Each Phone Book tab contains items listed below:

Tab	Item	
	Phone number	
	E-mail address	
	Photo	Homepage
	Group	Company
	Birthday	Job title
	Blood type	Memo
	Address	
	Secret	Vibe: Voice call
	Tone: Voice call	Vibe: Message
	Tone: Message	

Creating New Entries

Save new Phone Book entries to Phone or USIM Card.
Default: ***Phone***
Set save location to USIM Card as required (➲P.13-10).
Create new entry or save from Call Log record.

Saving Information as a New Entry

Create new entry; save name, reading, phone number, and mail address.

- For other items, see "Adding Information to Phone Book Entry" (➲P.2-16).

1 **(New)**

- If Save setting (➲P.13-10) is set to ***Always ask***, save location prompt appears. Select ***Phone***/***USIM***.

New Entry Items

2 **Select Last name field → Enter last name**

3 **Select First name field → Enter first name**

4 **Select Reading: Last name field → Edit reading as required**

5 **Select Reading: First name field → Edit reading as required**

6 **Select Phone number field → Enter number → Select phone type**

7 **Select E-mail address field → Enter mail address → Select address type**

8 **(Save)**

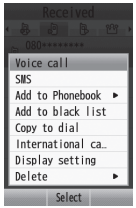
- 0 through 9, #, *, -, P (pause), and + (International Code) can be registered for entering in Phone number field. Press (*) to toggle *, - and P. Press (0) (1 + seconds) to enter +.
- If a Memory Card file is selected for incoming image or Ringtone, copy file to handset confirmation appears. For a copy protected file, move file to handset first confirmation appears. Choose ***Yes*** to complete setting.
- When using Samsung New PC Studio to synchronize Phone Book entries with a PC, secret entries are not synchronized to PC. If an entry is changed to a secret entry, it can no longer be synchronized and is deleted from the PC. Samsung New PC Studio is available for download from SAMSUNG Website (http: //jp.samsungmobile.com/pc/lineup/001download.html).

Saving Entries from Call Log Records

Save numbers in Call Log records to new or existing entries.

1 (Call) / (Mail) / (Web)

2 **Highlight/select record →** (Y!)



3 ***Add to Phonebook***

4 **Select saving method**

■ **To Save as a New Entry**
New → (P.2-12 Creating New Entries 2)

■ **To Update Existing Entry**
Update → Search and select entry (P.2-13) → Save a number to Phone Book (P.2-12)

- If save setting (P.13-10) is set to ***Always ask***, a message appears to prompt you to specify a saving location. Select ***Phone***/***USIM***.

Entry Search

Use ***ABC/Group/Reading*** to search entries.

1 (Phone Book)

Phone Book List

2 (Y!) → ***Settings*** → ***Search method***

3 ***ABC/Group/Reading***

- Selected search method is saved.

4 Search entry

■ **To Search Alphabetically**
to select letter → to select entry

■ **To Search by Group**
Select a group → View entry from search result

■ **To Search by Reading**
View entry from search result

Entry Details

- Search by entering a lead-off letter.
- If ***Security*** → ***Secret*** is set to ***Hide***, secret entries do not appear. In Phone Book search window, press → ***Unlock temporarily*** → Enter Phone Password → (OK) to see secret entries.

Calling from Phone Book

1 Search and select entry (P.2-13) → (Select)

2 Highlight phone number → ( )

3 Place a call

■ **To Place a Voice Call**
Voice call

■ **To Place a Call after Editing Number**
Copy to dial → Edit phone number → ( ) / → ***International call*** (P.3-10 International Calling)

■ **To Place an International Call**
international call (P.3-10 International Calling 2)

Deleting Phone Book Entries

Deleting an Entry

1 → Highlight entry → → ***Delete*** → ***Selected*** → ***Yes***

- Alternatively, in Entry details window, press → ***Delete*** → ***Yes***.

Deleting Multiple Entries

1 → → ***Delete***

2 Delete entries

■ **To Delete Multiple Entries**
Multiple → Check entries → (Delete) → ***Yes***

■ **To Delete All Entries**
All → Enter Phone Password → (OK) → ***Yes***

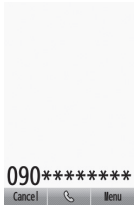
Voice Call

Placing a Voice Call

Directly enter phone number to call.
To place a call from Phone Book, see "Calling from Phone Book" (➔P.2-14).

1 Enter phone number including area code



Phone Number Entry Window

2 Confirm entered phone number → (Accept) / ■ ( )

3 To end the call → (End)

- To correct entered digit, press (CLEAR). Press (CLEAR) for 1 + seconds to delete all.
- To enter P (pause), press (*) twice. To enter + (International Code), press (0) for 1 + seconds.
- When entering phone number, press last digit 1+ seconds to initiate dialing.
- When the line is busy, press (End) to end the call and try again later. If ***Auto redial*** (➔P.13-10) is ***On***, number is automatically redialed. Press (cancel)/(End) to cancel redialing.
- When Stereo Earphone Microphone (optional) is connected and ***Earphone call*** is set to ***On*** in Standby, press Stereo Earphone Microphone switch for 1+ seconds to call specified phone number. Press it again for 1 + seconds to end the call.

Receiving a Voice Call

1 Voice Call window appears, (Accept)

2 To end the call → (End)

- To put caller on hold, press (End). To connect the call, press (Accept) / ■ (Accept).
- If Stereo Earphone Microphone (optional) is connected, press Stereo Earphone Microphone switch for 1 + seconds to accept Voice Calls. Press it again for 1 + seconds to end the call.
- Missed Call Window
  Missed call window appears for unanswered calls. Select View to view incoming calls (➔P.3-8).
- Ringtone
  Specify Ringtones by Phone Book entry or Category (➔P.2-17, P.2-19). If they are not set, they will ring according to the activated mode (➔P.14-10).
  If ***Security → Secret*** is set to ***Hide*** when a call from a secret entry number is received, the handset will ring according to the activated mode.

- Incoming Call Window
  If a caller sends Caller ID, phone number appears. If saved in Phone Book, name also appears. If caller hides Caller ID, ***Withheld*** appears.
  If incoming image has been saved in Phone Book or for a group, saved image also appears (➔P.2-16, P.2-19). If ***Security → Secret*** is set to ***Hide*** when a call from a secret entry is received, only number appears.
- When You Cannot Answer a Call
  Use Call Forwarding or Voicemail to handle calls. While handset rings/vibrates, press ✉ (Forward) to forward the call to Voicemail or designated number immediately (➔P.3-13, P.3-14). Alternatively, press ● (Record) to record caller message on handset (➔P.3-6).

In-Call Operations

Adjusting Volume

1 During a call, ▣

- Adjust Earpiece or Earphone (optional) volume. Setting remains even if handset is powered off.

Holding Incoming Call

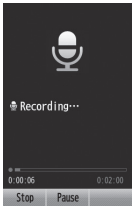
Place call on hold and reconnect.

1 During a call, Y! → *Hold*

- When a call is put on hold, the party on hold hears a hold tone and neither party can hear each other's voice.
- To reconnect call, press Y! → ***Answer***.
- To put a current call on hold, separate subscription is required to use either Call Waiting (➔P.3-15) or Conference Call (➔P.3-15). No liability is assumed for any damage associated with SSL/TLS use.

Recording a Call

1 During a call, Y! → *Record* → ● (Record)



2 End recording → ✉ (Stop)

- Record voice for up to two minutes during a call.
- To pause recording, press ● (Pause). Press ● (Record) to resume recording; press ✉ (Save) to save recording up to paused point.
- Recorded sound file is saved to Ring Songs・Tones in Data Folder.
- If Call Waiting is subscribed to, recording is stopped when there is another incoming call, and Incoming call window appears.
- If the call is terminated while being recorded, recording is automatically shut off, and the voice file is saved.

Text Memo

1. During a call, Y! → *Memo*
2. ✉ (Add) → Enter text memo → Select Category field → Select category → ✉ (Save)

Favorites

Save Phone Book entries as Favorites for quick calling.

Saving Entries as Favorites

Save up to 20 frequently used entries.

1. ● → *Phone* → *Favorites*
2. ● (Add)
   - If more than one entry is saved in favorites, press Y! → *Add*.
3. Search and select Phone Book entry (➲P.2-13)
4. Select number/*No setting* → Select address/*No setting* → ✉ (Save)

- To remove saved phone number and mail address, press ● → *Phone* → *Favorites* → Highlight entries → Y! → *Remove* → *Selected*.
- Secret entry phone numbers cannot be saved as Favorites.
- Setting phone number saved as Favorites to secret entry cancels Favorites setting automatically.

Using Favorites

1. ■ → *Phone* → *Favorites*
2. **Highlight designated number →** ☎ / ■ (📞)

- In Favorites, number designated to entry appears. Alternatively, in Standby, enter designated number → ■ (📞).
- Alternatively, in Standby, press 📋 to view Favorites.

Sending Messages

1. ■ → *Phone* → *Favorites*
2. **Highlight designated number →** ✉ **(✉) → Create message (➔P.4-4 S! Mail 5)**

- In Favorites, number designated to entry appears. Alternatively, in Standby, enter designated number → ■ (✉).
- Alternatively, in Standby, press 📋 to view Favorites.

Emergency Numbers

Call 110 (Police), 119 (Fire & Ambulance) or 118 (Maritime Safety Agency). These numbers can be dialed even when certain Call Barring settings are active. See details below.

001SC Status	Emergency Numbers
Offline Mode activated (➔P.1-11)	N/A
Phone Lock activated (➔P.10-3)	N/A
Password Lock activated (➔P.10-4)	N/A
Required PIN not entered (➔P.10-4)	N/A
USIM Card cannot be authenticated (➔P.10-4)	N/A
Outgoing Call Barring activated (➔P.3-17)	Applicable

Note

- **Emergency calls may not be possible outside Japan depending on available network, signal conditions or handset settings.**

Emergency Location Report

When calls are placed to Police or other emergency agencies from handset, handset location information is automatically sent to the corresponding agency. Handset transmits location based on base station positioning information.

- Location accuracy may vary by geography or signal conditions. Always verify your location with address or nearby landmark.
- Base station positioning accuracy ranges from several hundred meters to ten kilometers. This information may differ from actual location due to distance of the closest base station location.
- This function is only available if the agency receiving an emergency call has implemented the infrastructure for receiving location information.
- If you hide Caller ID by dialing 184 before calling an emergency number, your location information is not sent. However, authorities may access this information when necessary.
- No subscription/Communication charges required.

Answering Machine

Handset records up to three 15-second messages.

Activating & Canceling

1. ■ → *Settings* → *Call settings* → *Answering machine*
2. *On/Off* → *On* or *Off*

- If Answering machine is on, appears in Standby.
- In Standby, press (CLEAR) for 1 + seconds to activate/cancel Answering Machine.
- Calls appear in Call Log records.

Note

- **If handset is off, out-of-range, or in Offline Mode, Answering Machine is unavailable. Use Voicemail to handle incoming calls.**
- **Answering Machine requires at least 600 KB of unused handset memory.**

Using Answering Machine

Use Answering Machine to record caller messages (➔P.3-6).

1. ■ → *Phone* → *Play messages*
2. Select a message

- After Answering Machine records a message, appears on Standby.
- Alternatively, in Standby, press → Highlight Answering machine → ( ) → Select entry.
- Alternatively, press ■ → *Settings* → *Call settings* → *Answering machine* → *Play messages* → Select message.

Deleting Messages

1. ■ → *Phone* → *Play messages*
2. Highlight message → (Delete) → *Yes*

- Message is deleted; *Missed call* appears in Call Log.

Advanced

Settings

- Activate/Cancel Answering Machine (☞P.13-8)
- Set Answering Machine Response Time (☞P.13-8)
- Play Answering Machine Records (☞P.13-8)
- Set Answering Machine Response Language (☞P.13-8)

Black List

Reject incoming calls. Alternatively, reject calls from specified or unknown numbers (➲P.13-9).

Rejecting Incoming Call

1 While handset rings, Y! (Reject)

- Rejected calls appear in Call Log records.
- If Call Forwarding or Voicemail is unset, while handset rings, press ✉ (Forward) to reject the call.
  Call is unavailable due to the reasons of other party message appears on caller's handset before call is disconnected. If handset is incompatible, call is simply disconnected.

Calls from Specified Numbers

1 ■ → *Settings* → *Call settings* → *Reject incoming calls*

2 *Set reject number* → *On/Off* → *On*

- For calls from Black list, caller hears a busy tone and call is not connected. Missed Call Notification appears in Standby. Select notification to check missed call.
- Choose ***Off*** to allow calls from specified numbers.

3 *Black list*

4 ■ (Add)

- If more than one phone number is saved in Black list, press Y! → ***Add***.

5 Add an entry

■ **To Add from Phone Book**
Phonebook → Search and select entry (➲P.2-13)

■ **To Add from Call Log/Ranking**
Call log → / / / → Select entry

■ **To Enter Phone Number Directly**
Direct input → Enter Phone Number

6 ✉ (Done)

- To delete saved numbers after 3, highlight numbers → Y! → ***Delete*** → ***Selected*** → ***Yes***.

Calls from Unknown ID Numbers

1 ■ → *Settings* → *Call settings* → *Reject incoming calls*

2 *Unknown* → *On*

- Choose ***Off*** to allow calls from unknown numbers.

Calls from Withheld ID Numbers

1 ■ → *Settings* → *Call settings* → *Reject incoming calls*

2 *Withheld* → *On*

- Choose ***Off*** to allow calls from withheld ID numbers.

Calls from Public Pay Phones

1 ■ → *Settings* → *Call settings* → *Reject incoming calls*

2 *Payphone* → *On*

- Choose ***Off*** to allow calls from pay phones.

Calls from Unavailable ID Numbers

1 ■ → *Settings* → *Call settings* → *Reject incoming calls*

2 *Unavailable* → *On*

- Choose ***Off*** to allow calls from unavailable ID numbers.

Call Log Records/Ranking

Choose from / / / to view Call Log. Ranking for outgoing call appears in Ranking. Confirm call type, number, or time. Call Log holds a combined total of 1000 calls, 500 incoming calls, 500 outgoing calls and top ten rankings.

Viewing Call Log Records

1 → / /

- Alternatively, in Standby, press to show outgoing call log records.
- Alternatively, in Standby, press to show incoming call log records.

International Calling

1 **Enter a phone number including area code**

2 Y! → ***International call*** → **Highlight country →** ☎ **/** ■ ( ) **Or** Y! → ***International call*** → ***Enter Code*** → **Enter country number →** ☎ **/** ■ ( )

- Country code entry is not required to call SoftBank handsets outside of Japan, regardless of country.

Global Roaming

This handset is compatible with 3G networks. It will not function on GSM or GPRS networks. Apply for Global Roaming Service beforehand. For information, see SoftBank Mobile Website: (http: //mb.softbank.jp/en/global_services/)

Setting Network

This handset is SoftBank 3G network compatible. To use this handset outside Japan, switch network (service provider) in 3G Roaming areas.

Selecting a Network

Select network (service provider) for the area where handset is used. Manual selection is also available.

1 ▣ → ***Settings*** → ***Call settings*** → ***International call*** → ***Select operator*** → ***Select Auto/Manual***

2 **Select Network mode**

- **To Set Automatically**
  Automatic
- **To Specify Operator**
  Manual → Select an item

Setting Preferred Network

Add Network list preferentially selected when ***Automatic*** is set.

1 ▣ → ***Settings*** → ***Call settings*** → ***International call*** → ***Select operator*** → ***Set priority***

2 **Add Preferred Network list**

- **To Select & Add from Network List**
  Y! → ***Insert*** → ***Network list*** → Select network
- **To Add Network**
  Highlight location to insert network, Y! → ***Insert*** → ***New network*** → In Country code field, enter country code → In Network code field, enter Network code → Select Network name field → Enter Network name → ✉ (Save)

- To delete network, after 1, highlight network → Y! → ***Delete*** → ***Yes***.
- Items to set in ***New Network*** are as follows.
  Country code: Up to three digits
  Network code: Up to three digits
  Network name: Up to 20 words

Calling Outside Japan

Emergency calls may not be possible outside of Japan depending on network, signal conditions, or handset settings (➔P.3-5).

1 **Enter a phone number including area code →** ☎

2 **Place a call**

- **To Place a Call to Japan**
  Call to Japan
- **To Place a Call to Visiting Country**
  Visiting country
- **To Place a Call to a Country Other than Japan**
  Call to a country Other than Japan → Select country
- **To Place a Call by Entering Number**
  Call this number
  - If ***Never*** is checked or ***Roaming dial assistant*** is ***Off***, operation above is not required.

- To place a call by directly entering country number, press 0 for 1 + seconds to enter +. Enter country number, phone number excluding the first ***0*** → Press ☎ to dial. To place a call to Italy, include the first 0 if there is one.
- If + and country code is included at beginning of phone number, 2 is not required.

Advanced

Settings

- Save International Code (☞P.13-9)
- Add/Change/Delete Country Number (☞P.13-9)
- Select Network to Access (☞P.13-9)
- Select Preferred Network from List (☞P.13-9)
- Add a New Preferred Network (☞P.13-9)
- Set Roaming Dial Assistant (☞P.13-9)
- Retrieve Network Information Manually (☞P.13-23)
- Seek the Most Prioritized Network (☞P.13-23)

Optional Services

Available optional services are as follows:

Service	Description
Voicemail	Divert all or all unanswered calls to Voicemail Center; access caller messages via handset from within the service area or via a touchtone phone anywhere. ・Set Missed Call Notification to notify missed calls by notification when handset is off or out-of-range (➲P.3-14).
Call Forwarding	When you know you will be unable to answer calls, automatically divert calls to a specified number.
Call Waiting	Put the line on hold to answer another line or alternate between lines. Or toggle lines among multiple lines simultaneously.
Conference Call	Open another line while one is engaged; toggle lines or talk with up to six parties simultaneously.
Call Barring	Restrict incoming or outgoing calls by condition.
Caller ID	Show/hide your own number when placing calls.

Note

- **Call Waiting and Conference Call require separate subscription.**
- **If *Out* appears, services are unavailable. For landline operation or service details, see SoftBank Mobile Website (http: //www.softbank.jp).**

Voicemail

Handset forwards Voice Calls to Voicemail Center according to the following conditions:

Forwarding Condition	Description
Always	Handset does not ring/vibrate for incoming calls; calls are diverted automatically. Missed Call Notification does not appear.
No reply	Unanswered calls are diverted after the specified ring time, or when the line is busy or handset is outside service area.

Note

- **Voicemail and Call Forwarding cannot be active at the same time.**
- **Activating Voicemail cancels Call Forwarding.**

Activating Voicemail

1. ■ → ***Settings*** → ***Call settings*** → ***Optional services*** → ***Voicemail/Call forwarding*** → ***Voicemail on***
2. **Select an item**
   - ■ **To Transfer Immediately**
     Always (0 sec.)
   - ■ **To Set Ring Time before Transfer**
     No reply (5 to 30 sec.)

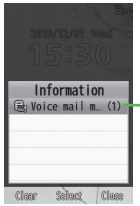
- If ***No reply (5 to 30 sec.)*** is set, answer call within set ring time to cancel forwarding, or press ✉ (Forward) to Voicemail Center to forward immediately.

Canceling Voicemail

1. ■ → ***Settings*** → ***Call settings*** → ***Optional services*** → ***Voicemail/Call forwarding*** → ***Deactivate All*** → ***Yes***

Listening to Voicemail Message

When a caller saves a Voicemail message, notification appears in Standby and 📨 appears at top of Display.



Indicated by Icons and Messages

- ■ **When Notification Appears**
  Select notification → Highlight history → ✉ (View)
  - Select View → Select record to view message detail.
  - Press ✉ (Close) to clear the notification without playing the message.
- ■ **When Notification Does Not Appear**
  ■ → ***Phone*** → ***Call voicemail*** → ☎ / ■ (📞)
  Or
  Enter ***1416*** → ☎ / ■ (📞)

- If you delete a message you played, 📨 disappears.

Activating Missed Call Notification

Notification appears for missed calls while handset is off or outside service area; or when caller saves message at Voicemail Center while the line is engaged.

1 Enter *1414* → ( ) / ■ ( )

2 Follow guidance

- Alternatively, press ■ → ***Settings*** → ***Call settings*** → ***Optional services*** → ***Missed call notification*** to activate Missed Call Notification.
- Notification is saved as Call Log record.
- Missed Call Notification is complimentary.

Advanced

Settings

- Forward All Calls to Voicemail (Handset Does Not Ring) (☞P.13-7)
- Forward Unanswered Calls to Voicemail (Specify Ring Time) (☞P.13-7)
- Cancel Voicemail/Call Forwarding (☞P.13-7)
- Confirm Current Voicemail/Call Forwarding Settings (☞P.13-7)
- Listen to Voicemail Message (☞P.13-7)
- Cancel Voicemail/Call Forwarding (☞P.13-7)

Call Forwarding

Forward incoming calls to a specified number in accordance with the predefined forwarding condition which you can set (➲P.3-14).

Note

- **Call Forwarding and Voicemail cannot be used at the same time.**
- **Activating Call Forwarding cancels Voicemail.**

Activating/Canceling Call Forwarding

Specify a forwarding number beforehand.

1 ■ → *Settings* → *Call settings* → *Optional services* → *Voicemail/Call forwarding* → *Call forwarding on/ Deactivate All*

- When canceled, confirmation appears. Choose ***Yes*** to end operation.

2 *Always (0 sec.)* or *No reply (5 sec.)* to *No reply (30 sec.)*

3 Set forwarding number

■ **To Use Previous Forwarding Number**
Last set number → Select number

■ **To Enter from Phone Book**
Phonebook → Search and select entry (➲P.2-13) → Select number

■ **To Enter Number Directly**
Enter number → Enter phone number

- If ***No reply (5 to 30 sec.)*** is set, answer call within set ring time to cancel forwarding, or press (Forward) to forward immediately.

Advanced

Settings

- Activate & Set Forwarding (☞P.13-7)
- Cancel Voicemail/Call Forwarding (☞P.13-7)
- Confirm Current Voicemail/Call Forwarding Settings (☞P.13-7)

Call Waiting

Separate subscription is required to use this service. For use with Voice Calls only.

Activating/Canceling Call Waiting

1 ● → ***Settings*** → ***Call settings*** → ***Optional services*** → ***Call waiting***

2 ***On*** **or** ***Off***

- For current status, select ***Get status*** after 1.

Accepting a Second Call

If a call arrives during a call, interrupt tone sounds and notice appears. Put first call on hold to answer.

1 After interrupt tone sounds, ● (Accept) → *Answer (Hold call)*/ *Answer (End call)*

- To put current call on hold to answer second call, press ⌐.
- To put current call on hold to answer second call, select ***Hold call***.
- To end current call to answer second call, select ***End call***.

2 To switch parties, ✉ (Group call)

3 Switch party

- ■ **To End Selected Call** ***End this call***
- ■ **To Switch to Group Call** ***Call to all***
- ■ **To Switch Party** ***Switch***
- ■ **To End All Calls** ***End all calls***

- If one party ends a call with another on hold, press ✉ → ***Answer*** to talk with party on hold again.
- If Call Forwarding or Voicemail is set and second call is not answered, it is forwarded to a forwarding number or Voicemail Center.
- If forwarding condition is set to ***Always***, Call Waiting is unavailable.

Advanced

Settings

- Activate/Cancel Call Waiting (☞P.13-7)
- Confirm Current Call Waiting Settings (☞P.13-7)

Conference Call

Talk with up to six parties simultaneously.
This service requires separate subscription.

Placing New Call During a Call

Connecting a second call places first one on hold.

1 During a call → Enter phone number

- To select from Phone Book, press ✉ → ***Phonebook*** → Search and select entry (➲P.2-13) → Select phone number.
- To select from ***Call log***, press ✉ → ***Call log*** → Select log.
- To enter phone number directly, press ✉ → ***New call*** → Enter phone number.

2 ⌐ / ● ( )

- Calling a third party is only possible with Conference Call (unavailable if a party is on hold).

Switching Party

1 While connected with multiple parties, ✉ (Group call) → *Switch*

- If connected party ends call in Conference Call, party on hold remains on-hold. To talk with party on hold, press ✉ → ***Answer*** to cancel hold.

Talking with All Parties

1 While connected with multiple parties, ✉ (Group call) → *Call to all*

- To talk with one party again, highlight one party → ✉ (Group call) → ***Call to this person***.

- To end all calls, press ✉ (Group call) → Select ***End all calls***.
- When one party ends the call during Conference Call, continue talking with remaining parties.

Call Barring

Bar outgoing/incoming Voice Calls or SMS by conditions listed below.

Item	Description
Outgoing call	
Bar all outgoing calls	Disables calling or sending SMS to all but emergency numbers.
Bar all international calls	Disables outgoing international calls and SMS.
Bar international calls	Disables calling or sending SMS to numbers outside of Japan and the country where you are.
Incoming call	
Bar all incoming calls	Blocks all incoming calls and SMS.
Bar all roaming calls	Blocks all incoming international calls and SMS.

- Setting Call Barring requires Center Access Code (Network Password) (four-digit number specified at subscription).
- If a call is placed while Call Barring is active, a message appears indicating that Call Barring is active. The message may appear after a while depending on service area.

Note

- **If incorrect Center Access Code (Network Password) is entered three consecutive times, Call Barring is disabled. In this case, change Center Access Code (Network Password). For details, contact SoftBank Mobile Customer Center, General Information (➔P.14-29).**
- **If Call Forwarding or Voicemail is active, *Bar all outgoing calls* and *Bar All incoming calls* cannot be set (Optional Services override Call Barring settings).**

Restricting Outgoing/Incoming Calls

Bar outgoing/incoming calls/transmissions by type (Voice Calls or SMS).

1. ▣ → *Settings* → *Call settings* → *Optional services* → *Call barring*
2. Select a restriction type
   - ■ For Outgoing Calls
     Outgoing call → *Bar all outgoing calls*, *Bar all international calls*, or *Bar international calls*
   - ■ For Incoming Calls
     Incoming call → *Bar all incoming calls* or *Bar all roaming calls*
3. *On* or *Off*
4. Enter Network Password → ▣ (OK)

Canceling All Barring

Cancel all barring for outgoing or incoming calls.

1. ▣ → *Settings* → *Call settings* → *Optional services* → *Call barring*
2. *Cancel all barring*
3. Enter Network Password → ▣ (OK) → *Yes*

Checking Call Barring Status

1. ▣ → *Settings* → *Call settings* → *Optional services* → *Call barring*
2. *Get status* → *All outgoing calls*, *All international calls*, *International calls*, *All incoming calls* or *All roaming calls*

Advanced

Enter a phone number including area code → [Menu] → ***Add to Phonebook*** → (➔P.2-19 Entering & Saving Phone Number)

Sending New Message to Entered Number

Enter a phone number → [Menu] → ***Create message*** → ***S! Mail*** or ***SMS*** → (➔P.4-4 S! Mail 5, P.4-5 SMS 5)

Showing/Hiding Your Number for a Call

Enter a phone number including area code → [Menu]

■ **To Hide Your Own Number**

Hide my ID → [Call] / [●] ( )

■ **To Show Your Own Number**

Show my ID → [Call] / [●] ( )

- Otherwise, ***Caller ID*** setting applies.
- Alternatively, enter ***186***, ***184*** → Enter phone number → [Call] / [●] ( ) to show/hide your number and place a call.

Setting Mute

During a call, [Mail] (Mute)

- During a call, press [Mail] (Unmute) to switch to a normal call.

Switching to Speakerphone

During a call, [●] ( ) → ***Yes***

- To cancel Speakerphone, press [●] ( ) during a call.

Talking in Low Voice

During a call, [Menu] → ***Whisper On***

- With ***Whisper On***, your voice is amplified on other party's phone.
- During a call, press [Menu] → ***Whisper Off*** for normal call.

Reducing Ambient Noise

During a call, [Menu] → ***Clear talk*** → ***On***

Using Functions during Call

During a call, [Menu]

■ **To Send Push Tones**

Send DTMF → Enter digits → [Call] / [●] (Send)

■ **To Search Phone Book during Call**

Phonebook → (➔P.2-13 Entry Search 2)

■ **To View Call Log Records/Ranking**

Call log → (➔P.3-8)

■ **To View Account Details**

Account details → (➔P.1-10)

■ **To View Message Menu**

Messaging → (➔P.4-3)

■ **To View Calendar**

Calendar → (➔P.9-4)

■ **To View Memo**

Memo → (➔P.9-8)

Call Log Records/Ranking

Sending S! Mail from Call Log Records

[Call] → [1] / [2] / [3] / [4] → Select/Highlight a record → [Mail] ( ) → (➔P.4-4 S! Mail 5)

- Alternatively, in Call Log/Ranking detail window, press [Mail] ( ) → (➔P.4-4 S! Mail 5).
- If more than one phone number and mail address are saved in Phone Book with the call record, after [Mail] ( ), select item → (➔P.4-4 S! Mail 5).

Sending SMS from Call Log Records

[Call] → [1] / [2] / [3] / [4] → Select/Highlight a record → [Menu] → ***SMS*** → (➔P.4-5 SMS 5)

- Alternatively, in Call Log/Ranking detail window, press [Menu] → ***SMS*** → (➔P.4-5 SMS 5).

Viewing Phone Book Entry Details via Call Log

[Call] → [1] / [2] / [3] / [4] → Select/Highlight a record → [Menu] → ***View Phonebook***

- Alternatively, in Call Log/Ranking detail window, press [Menu] → ***View phonebook***.

Adding Log Record Numbers to Phone Book

[Call] → [1] / [2] / [3] / [4] → Select/Highlight record → [Menu] → ***Add to Phonebook*** → (➔P.2-13 Saving Entries from Call Log Records 4)

- Alternatively, in Call Log/Ranking detail window, press [Menu] → ***Add to Phonebook*** → (➔P.2-13 Saving Entries from Call Log Records 4).

Adding Call Log Record Numbers to Black List

→ / / / → Select a record → → ***Add to black list*** → ***Yes***

- Alternatively, in Call Log/Ranking detail window, press → ***Add to black list***.

Hiding/Showing Ranking

→ / / / → → → ***Display setting*** → ***Show ranking***/***Hide ranking***

Conference Call

Ending Selected Call

During Conference Call, highlight party → (Group call) → ***End this call***

Putting All Calls on Hold

During Conference Call, (Group call) → ***Hold all calls***

- To cancel on-hold, press (Group call) → ***Call to all***.

Messaging Basics

This handset supports S! Mail and SMS messaging. Learn how to send and manage text messages.
Use S! Mail to exchange long text messages with SoftBank and other E-mail compatible handsets, PCs and other mobile devices.
Send Graphic Mail and media files via S! Mail.
Use SMS to exchange short text messages with SoftBank handsets.

Note

- **S! Mail requires separate subscription.**
- **Maximum message size is increased to 2 MB. Sending messages might incur high Packet Communication charges depending on message size and your subscription.**
- **Messages created on handset may not appear on other party's handset correctly.**
- **Received Hangul messages are viewable.**
- **Hangul may be deleted from sent message or appear as spaces on other party's handset.**
- **Send message containing Hangul via E-mail; Hangul may be deleted even if message is sent to Hangul compatible mobile phone.**

	S! Mail[1]	SMS
Entry Items		
Address	○	○
Subject	○	×
Attachment	○	×
Text	○	○
Character Limit	Up to 15,000 double-byte characters, or up to 30,000 single-byte characters (30 KB) [2]	Up to 70 single-/double-byte characters, or up to 160 single-byte alphanumeric[3]
Recipient	SoftBank mobile phones, other E-mail compatible mobile phones, PCs	SoftBank handset
Contents	Long text message, image, sound, Graphic Mail, and Feeling Mail[4]	Short text message Transmit text, Pictograms, and Symbols, etc.

[1]Maximum message size is 2 MB including address, subject, message text, attachments, etc. (this applies to replay and forward S! Mail messages). Change the limit for sending message size to 300 KB.

[2]Limit for text entry varies with attachment size, etc.

[3]When ***Char-code*** is set to ***GSM 7 bit*** (➔P.13-14).

[4]Exchange Feeling Mail only with compatible handsets.

Customizing Mail Address

Change the alphanumerics before the @ in the address (account name).
Default: Account name consists of random alphanumerics.
For details, see SoftBank Mobile Website (http: // mb.softbank.jp/en/).
Customizing mail address may help reduce spam.

1. ✉ → *Settings* → *Custom mail address*
2. *English* → Follow onscreen instructions
   - After customizing mail address, SoftBank sends a confirmation message.
3. ✉ → *Received msg.* → Select a folder → Select message from Information → *Yes*

Advanced

Settings

- Customize/Change Handset Mail Address (☞P.13-11)

Creating/Sending Messages

Drafts and sent messages are saved in different folders.
Sent messages appear in Sent msg. and drafts in Drafts.
Create and send S! Mail/SMS, Graphic Mail, and attach files.

S! Mail

Note

- Sending messages might incur high Packet Communication charges depending on message size and your subscription. Set *Max creation size* to *300KB* to limit message size (➲P.13-13).
- Messages containing Hangul characters or attachments with Hangul characters are converted to UTF-8 character encoding. Character encoding remains as UTF-8 even if Hangul characters are deleted from message. If character encoding is UTF-8, Graphic Mail and Auto art will be unavailable.
- If Hangul characters are entered in a message containing Japanese characters, Japanese characters in message are converted to UTF-8 character encoding, and character count of Japanese characters increases by 1.5 times. If character count exceeds limit, Hangul characters cannot be entered.
- Hangul characters are viewable only when other party uses Hangul compatible mobile phone.
- Enter phone number in Recipient to send S! Mail containing Hangul characters. If mail address is entered, Hangul characters will not be viewable.
- For Graphic Mail:
  - If text to be inserted (Notepad, Phone Book, etc.) contains Hangul characters, Hangul characters will be deleted.
  - If attachment file name is Hangul, file name will be converted to *nonamexx* (xx is number).
  - If part of attachment file name is Hangul, Hangul characters will be deleted.

Sending S! Mail

1 ✉ → ***Create new***
- Alternatively, in Standby, press ✉ for 1 + seconds to open Message creation window.

S! Mail Creation Window

2 **Select Recipient field**

3 ***From phonebook*** **→ Search and select Phone Book entry (➔P.2-13)**
- Press ✉ (Multiple) to select multiple addresses from Phone Book at once.

4 **Select number or address**

5 **Select Subject field → Enter subject**

6 **Select Attach field, when attaching files to message (➔P.4-4)**

7 **Select Enter Text field → Enter text**

8 ✉ **(Send)**

- Send S! Mail from ***From history***/***From mail group***/***Enter number***/***Enter address*** (➔P.4-16).
- Enter SoftBank handset numbers or mail addresses in Recipient field. Add up to 20 recipients.
- If CLEAR is pressed with address, subject or text entered or a file attached, an exit confirmation appears. Choose ***Yes*** to save to Draft and exit. Choose ***No*** to exit. Select ***Cancel*** to return to Message creation window.
- If ⏻ is pressed with address, subject or text entered or a file attached, an exit confirmation appears. Choose ***Yes*** to exit. Choose ***No*** to return to Message creation window.
- Sent message is saved in Sent msg. or Unsent msg. If ***Auto delete*** (➔P.13-12) is ***On (Except protected)*** and memory is full, the oldest sent messages are deleted automatically (except protected ones) to make room for new ones. If Unsent msg. is full or messages cannot be deleted automatically, memory full confirmation appears. Delete items and then send message.
- During message creation, message size appears next to Create msg in Message creation window.

Attaching Files

Attach media files directly, or Phone Book/Calendar/Tasks entries or Account Details as vcf file or vcs file. Send messages up to 2 MB (including address, subject and text). If message size exceeds ***Max creation size*** (➔P.13-13), attached image size is changed automatically. Alternatively, if message size exceeds ***Picture auto resize***, attached image size changes automatically. Changing its size temporarily is available (➔P.4-18).
Attach up to 20 files per S! Mail message.

Note

- **Some attachments may be lost depending on recipient's handset status. For supported file types, see SoftBank Mobile Website (http: //www.softbank.jp).**
- **When attaching video, select a file recorded in Video (➔P.6-8). If file is incompatible, a warning appears.**

1 ✉ → ***Create new*** **→ Select Attach field**

2 **Attach file**

■ **To Attach Data Folder Files**
Data Folder → Select a file location → Select a file

■ **To Attach Images Captured by Camera**
Take photo → Capture still image → ● (Save)

■ **To Attach Video Recorded by Camera**
Record video → Record video

■ **To Attach Phone Book Entries (vcf file)**
Phonebook details → Search and check entry (➔P.2-13) → ✉ (Add)

■ **To Attach Calendar/Tasks Entries (vcs file)**
Calendar item → Select tab menu → ***Schedule*** or ***Tasks*** → Highlight file → ● (Attach)

- To attach multiple files, select ***Calendar item*** → ▽ → ***Multiple*** → Check items → ✉ (Add).

■ **To Attach Memo Saved as VNT Format**
Notepad → Highlight file → ● (Select)

- To attach multiple files, select ***Notepad*** → ▽ (Multiple) → Check items → ✉ (Add).

■ **To Attach Account Details**
Account details → ✉ (Add)

- To add files, select Attach field → ▽ → ***Add file***, and repeat 2.
- When files are attached, file type indicators and file names appear in Attached file list.

Graphic Mail

Creating Graphic Mail

Note

- **Message with Hangul characters cannot be converted to Graphic Mail.**
- **For Graphic Mail, Hangul characters are unavailable. If text to be inserted (Notepad, Phone Book, etc.) contains Hangul characters, Hangul characters will be deleted.**

Examples:

- Changing font size and background color.
- Inserting image and pictograms in Data Folder.
- Scrolling characters to the left and the right.
- For other items, see "Sending S! Mail" (➲P.4-16).

1 ✉ → ***Create new*** → **Select Enter Text field**

2 ✉ → ***Graphic Mail (Hold: Send Key)***

Graphic Mail Creation Window

3 ***Font Size*** → ***Large***, ***Standard***, **or** ***Small*** → **Enter text**

- To continue, press ✉ (Decorate).

4 ✉ **(Decorate)** → ***Background color***

5 **Select a background color**

6 ✉ **(Decorate)** → ***Image***

7 ***Pictures*** → **Select a file**

- To insert image, select ***Mail art***.
- If Memory Card is inserted, select from Digital Camera folder.
- To capture image to insert, select ***Camera***.

8 ✉ **(Decorate)** → ***My Pict.*** → **Select a pictogram** → CLEAR

9 ✉ **(Decorate)** → ✉ **(Select area)** → **Move cursor to the first character** → ■ **(Start)** → **Move cursor to the last character** → ■ **(End)** → ***Effect***

10 ***Scrolling***

11 ***Right to left***

- In Graphic Mail creation window, select ***Undo*** to reverse most recent change.
- In Graphic Mail creation window, select ***Cancel*** → ***Yes*** to cancel all graphic settings and return to text entry window.

Decorate S! Mail with Auto Art

1. ✉ → *Create new*
2. Select Enter Text field → Enter text
3. *楽デコ*
4. Select Auto Art with ✉ (Next) → ● (OK)

Incoming Messages

Retrieve complete S! Mail messages automatically or manually.

Auto download: Mail Service Center sends complete S! Mail messages and attachments to handset. Manual retrieval: Mail Service Center sends S! Mail Notice.

Retrieve complete message as required. Learn how to receive, confirm, reply to, or forward text messages.

Note

- **Receiving messages might incur high Packet Communication charges depending on message size and your subscription. Set receiving options → *Auto receiving* to *Off* to receive part of message (➔P.13-13). Select message to receive whole message.**
- **Forwarding/reusing messages containing Hangul characters causes them to be converted into UTF-8 character encoding. Character encoding remains as UTF-8 even if Hangul characters are deleted from message. If character encoding is UTF-8, Graphic Mail will be unavailable.**

Viewing New Messages

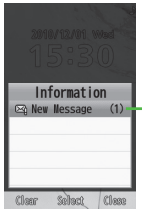
When receiving new messages, in Standby, notification appears.

Note

- **Default: Handset retrieves complete S! Mail messages, including attachments. Depending on your contract, retrieval may incur charges. Set Manual Retrieval (➔P.4-8).**
- **Default: *Receiving options* → *Auto receiving* to *On (Up to 1MB)*/*On (Up to 300KB)***
  Handset automatically retrieves complete S! Mail messages, including attachments. Set *Auto receiving* to *Off* to receive part of message (➔P.13-13).
  Select message to receive whole message.

1 Select notification

- If messages are received out of Standby, sender numbers or mail addresses (names if saved in Phone Book), etc. scroll across Display top. Afterward ✉ appears (➔P.1-3, P.13-11).



Number of Messages Received

Information Window (Received Messages)

2 View message

Message Window (S! Mail)

- When a file is attached, a file name and thumbnail appear at the bottom of the message.
- When a Delivery Report arrives, 📨 flashes and disappears. In Standby, a notification appears.
- Received message is saved in Received msg. If ***Auto delete*** (➔P.13-12) is ***On (Except protected)***/***On (Only read)*** and memory is full, messages are automatically deleted starting first with the oldest to make room for new ones. However, if ***Auto delete*** is ***On (Except protected),*** protected messages are not deleted. If messages cannot be deleted automatically, confirmation appears. Delete messages and retry.

Retrieving Messages Manually

When ***Receiving options*** → ***Auto receiving*** (➔P.13-13) is set to ***Off***, S! Mail is temporarily stored on Mail Server; part of the received message is sent to handset as a reception notification. Retrieve complete messages from Mail Server.

1 ✉ → *Received msg.*

2 Select a folder → Select a notification

3 *Retrieve mail*

- If ***Max receiving size*** is set to ***2MB*** and received message exceeds 300KB, confirmation appears. Select ***Within 300KB***/***Maximum***.

Using Messages

Handset automatically sorts messages into five folders by type.

Folder	Message Type
Received msg.	Received messages are saved
Drafts	Incomplete messages are saved
Templates	Created templates are saved
Sent msg.	Sent messages are saved
Unsent msg.	Failed/Canceled/Outgoing messages are saved

Using Message Information

In Message creation window, highlight sender, recipient, phone number or mail address to save to Phone Book, place a call, send message, etc.

Saving to Phone Book

1. ✉ → *Received msg.* → Select a folder → Select a message → Select phone number, mail address, or URL → *Add to phonebook*
2. Save a number to Phone Book
   - ■ **To Save as a New Entry**
     New → (➔P.2-12 Creating New Entries 2)
   - ■ **To Update Existing Entry**
     Update → Search and select entry (➔P.2-13) → Save a number to Phone Book (➔P.2-12)

Saving to Bookmark

1. ✉ → *Received msg.* → Select a folder → Select a message → Select URL → *Add to bookmark*
2. Select Title field → Enter a title
3. ✉ (Save)

Using Page Links

Use sender's address, phone number, mail address, or URL embedded in message text window.

1. ✉ → *Received msg.* → Select a folder → Select a message
2. Use linked information
   - ■ **To Place a Voice Call**
     Select a phone number → *Voice call*
   - ■ **To Edit a Number before Call**
     Select a phone number → *Edit before call*
   - ■ **To Send a Message**
     Select a phone number or a mail address → *S! Mail/SMS* as required (➔P.4-4 S! Mail 5,P.4-5 SMS 5)
   - ■ **To Access the Internet**
     Select URL → *Open Yahoo! Keitai/Open PC site browser*

• To message to a phone number, select S! Mail or SMS then create message.

Locking/Unlocking Messages/Templates

Lock a message/template or all messages in a folder. When deleting a locked message, confirmation appears. Cancel lock to delete.

Locking/Unlocking Messages

1 ✉ → *Received msg.*, *Drafts*, *Sent msg.* or *Unsent msg.* → Select folder as required

2 Lock Message

■ **To Lock a Message**
Highlight message → Y! → *Lock*/*Unlock* → *Selected*

■ **To Lock Multiple Messages**
Y! → *Lock*/*Unlock* → *Multiple* → Check messages → ✉ (Lock)
- Selecting all messages requires Phone Password entry.

■ **To Lock All Messages**
Y! → *Lock*/*Unlock* → *All*

Locking/Unlocking Templates

1 ✉ → *Templates*

2 Highlight template → Y! → *Lock*/*Unlock*

Deleting Messages/Templates

Deleting Messages

Delete specified messages or all messages in message folder.

1 ✉ → *Received msg.*, *Drafts*, *Sent msg.* or *Unsent msg.* → Select folder as required

2 Delete Message

■ **To Delete a Message**
Highlight message → Y! → *Delete* → *Selected* → *Yes*

■ **To Delete Multiple Messages**
Y! → *Delete* → *Multiple* → Check messages → ✉ (Delete) → *Yes*
- Selecting all messages requires Phone Password entry.

■ **To Delete All Messages**
Y! → *Delete* → *All* → Enter Phone Password → ■ (OK) → *Yes*

Deleting Templates

Delete specified templates or all saved templates.

1 ✉ → *Templates*

2 Delete Templates

■ **To Delete a Template**
Highlight a template → Y! → *Delete* → *Selected* → *Yes*

■ **To Delete Multiple Templates**
Y! → *Delete* → *Multiple* → Check templates → ✉ (Delete) → *Yes*
- Selecting all messages requires Phone Password entry.

■ **To Delete All Templates**
Y! → *Delete* → *All* → Enter Phone Password → ■ (OK) → *Yes*

- If protected messages or templates are included in the specified messages, a confirmation appears.

Saving Attached Files to Data Folder

1 ✉ → *Received msg.* or *Sent msg.* → Select folder → Select message

2 Y! → *Save*

■ **To Save Items**
Items → Check files → ✉ (Save) → Select item

- If file being saved is an image file, select *Save to Pictures*/*Save To Pictograms*/*Save To Mail art*.
- If file being saved is a music file, select *Save To Ring Songs・Tones*/*Save to Music*.

■ **To Save All My Pictograms**
All My Pictograms

■ **To Save Received Graphic Mail as Template**
As template → Enter template name

- If files with same name exist, file name is renamed automatically.

Using Mail Group

Use Mail Group to send messages at once.

Creating Mail Group

1 ● → *Phone* → *Mail group* → ● (New)

- If Mail Group is saved, press Y! → *New group*.

2 Enter group name → Select group name → ● (Add)

3 Search and select Phone Book entry (➔P.2-13)

Sending Message to Mail Group

1 ● → *Phone* → *Mail group*

2 Highlight Mail Group → ✉ (✉) → Create message (➔P.4-4 S! Mail 5)

- To send to a selected member in the group, select group → ● (✉).

Advanced

Settings

- Set/Cancel Auto Delete for Received Messages When Received Memory is Full (☞P.13-12)
- Set/Cancel Auto Delete for Sent Messages When Sent Memory is Full (☞P.13-12)

Managing Messages

Create folders in ***Received msg.*** or ***Sent msg.***, or set rules to each folder to sort messages automatically.
Set security to created folders. Received msg. and Sent msg. folder cannot be deleted and settings cannot be changed.
In received message lists, set flag to show/hide the flag. Messages can be sorted by flag status.

Creating Folders

1 ✉ → ***Received msg.*** or ***Sent msg.***

2 Y! → ***Add new folder***

3 **Edit folder name**

- New folder appears at bottom of list.
- Even if folders with same name exist, notification does not appear.

4 **If a confirmation appears, *Yes*/*No***

- If ***Yes***, see (➲P.4-14 Sorting Messages 3).

Moving Messages

1 ✉ → ***Received msg.*** or ***Sent msg.*** → **Select a folder**

2 **Move Message**

■ **To Move a Message**
Highlight message → Y! → ***Move to folder*** → ***Selected***

■ **To Move Multiple Messages**
Y! → ***Move to folder*** → ***Multiple*** → Check messages → ✉ (Move)

■ **To Move All Messages**
Y! → ***Move to folder*** → ***All***

3 **Select a destination folder**

- If moving a message, move confirmation appears, ***Yes***/***No***.

- Received messages are saved to ***Received msg.*** folder, and sent messages are saved to ***Sent msg.*** folder. To move back to the original folder after moving messages to another folder, operate 2 and select original folder.

Sorting Messages

Automatically sort sent/received messages to specified folder by number or address, etc. Sort messages by S! Mail subject or SMS text. Set up to 20 rules per folder.

1 ✉ → ***Received msg.*** or ***Sent msg.***

2 **Highlight folder** → Y! → ***Auto sort***

- To add a sorting rule for selected folder, press Y! → ***Add rule***.

3 **Set sorting rule**

■ **To Select Phone Number/Mail Address from Phone Book**
Sender (for some windows, ***Recipient***) → ***From phonebook*** → Search and select entry (➲P.2-13) → Select phone number or mail address

■ **To Select Phone Number/Mail Address from History**
Sender (for some windows, ***Recipient***) → ***From history*** → Select tab menu → ***Sent***/***Received*** → Select a history

■ **To Select Phone Number/Mail Address from Group in Phone Book**
Sender (for some windows, ***Recipient***) → ***From group*** → Select a group

- Groups saved on USIM Card cannot be set as a rule.

■ **To Enter Phone Number/Mail Address Directly**
Sender or ***Sender (Partial match)*** (for some windows, ***Recipient)*** → (***Enter number*** or ***Enter address*** when ***Sender*** (for some windows, ***Recipient***) is selected) → Enter phone number or mail address

■ **To Select a Rule from Text**
Subject → Enter text to set as a rule

4 ***Yes/No***

- Choose ***Yes*** to sort messages in Received meg./Sent msg.
- Choose ***No*** to sort only new messages.

5 ✉ (OK)

Sorting Spam

Messages from unknown mobile address are allotted to ***Spam folder*** without notice.

1 ✉ → ***Settings*** → ***Universal settings*** → ***Anti-spam measures***

2 Enter Phone Password → ● (OK)

■ **To Sort Unknown Address as Spam**
Unregistered → ***On***

■ **To Sort Message with Spam Filter**
Spam filter → ***On*** → ***Spam filter*** → ✉ (Edit) → (if address already exists, in the list, Y! → Add filter) → ***Sender/Sender (Partial match)/Subject*** → (➲P.4-14 Sorting Messages 3)

■ **To Add Address to Permitted List**
Permitted list → ***On*** → ***Permitted list*** → ✉ (Edit) → (if address already exists, in the list, Y! → Add filter) → ***Sender/Sender (Partial match)/Subject*** → (➲P.4-14 Sorting Messages 3)

- Available only when ***Spam filter/Unregistered*** is ***On***.

Advanced

Internet Services

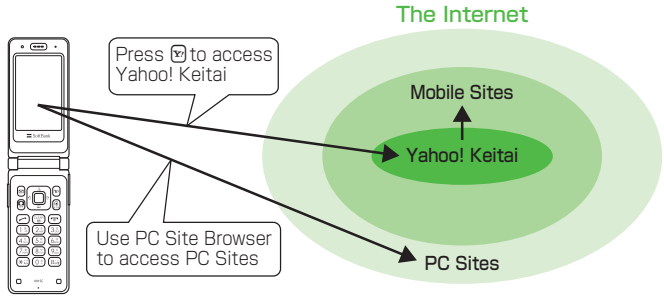
Access Mobile sites via Yahoo! Keitai or Internet sites via PC Site Browser.
View Web page contents or download media files.



- In this guide, "Yahoo! Keitai" refers to SoftBank Mobile Internet portal and the service itself. "PC sites" are sites accessible via PC Site Browser."Internet" refers to both Internet and Mobile Internet sites.
- Before using Internet, retrieve Network Information.

Note

- **Separate subscription is required for Internet services.**
- **Internet connections incur Packet Communication charges.**

Web Certificates (SSL/TLS)

Secure Sockets Layer (SSL) and Transport Layer Security (TLS) are encryption protocols for secure Internet transmissions of important/sensitive information (credit card numbers, etc.) and authentication.
Confirm electronic certificates saved on handset (➲P.5-11).

Note

- **Using SSL/TLS**
  When a security notice appears, subscribers must decide for themselves whether or not to open a page.
  Opening secure pages constitutes agreement to the terms of usage, SOFTBANK MOBILE Corp., Cybertrust Japan Co., Ltd., Entrust Japan Co., Ltd., GlobalSign K.K., RSA Security Inc. and SECOM Trust Systems Co., Ltd., COMODO Japan Inc. are not liable for the security of SSL/TLS. No liability is assumed for any damage associated with SSL/TLS use.

Opening Saved Pages

Retrieved Mobile Internet pages are temporarily saved in a cache. The cache remains even after a session ends or handset is turned off. When full, the oldest pages are automatically deleted to make room for new ones.
When a saved page is opened again, it may open from the Cache. For the latest content, reload the page.

- When another USIM Card is inserted, cache contents are automatically deleted.
- When a page with an expiry date is saved, the page is automatically deleted upon expiry.

Yahoo! Keitai

Use Yahoo! Keitai to view page contents or download image/music files.
Alternatively, access Yahoo! Keitai from Main menu, History, Bookmarks, Web search, or by entering URL.

Note

- **When *Send referer* is set to *Not send*, pages may not open (➲P.5-11).**

Yahoo! Keitai Main Menu

1 Y!

2 **Select an item**

- When accessing Mobile site for the first time, a screen for Retrieving Network Information appears at 1. After the retrieval, website appears.
- To open PC Site Browser from Yahoo! Keitai, press Y! → ***Switch to PC site browser*** → ***This page*** or ***Link*** → If a warning appears, select ***Yes***.

Viewing Page from Yahoo! Keitai Menu List

1 ■ → ***Yahoo!*** → ***Menu list***

Entering URL

1 ■ → ***Yahoo!*** → ***Enter URL***

- Default: "http: //" is set.

Capturing Image, Recording Video & Editing

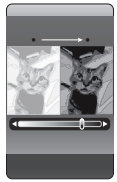
Use handset camera to capture images and record movies.

Capturing Images & Recording Video Clips

Select Scene, Multi Shot, etc. to capture image/video. Record up to an hour per clip (➔P.6-8).

Editing Images

Editing images, etc. (➔P.6-10).



Variety of Capturing Mode

Choose applicable mode; Multi shot, Scene, etc., according to conditions (➔P.6-3).

Note

- **Use a dry soft cloth to remove debris from camera lens cover.**
- **Avoid camera shake; hold handset steady or put it on something stable and use Timer to prevent unwanted image blur.**
- **Do not expose handset to devices with static electricity when using camera.**
- **Camera employs high precision technology, however, some pixels may seem brighter or darker than others.**
- **Leaving handset in a hot place for an extended period before capturing/saving image may affect image quality.**
- **Exposing lens to direct sunlight may affect image color.**
- **When battery is low, camera may be unavailable.**

Camera

For capturing still images, select Shooting mode: ***Normal*** to shoot single image and ***Multi shot*** or ***Photo combi*** to shoot multi-shot.
Captured images are saved to Pictures. Insert Memory Card to save images to Digital camera.

Using Media Player

This handset features a Media Player.
Download media files via Yahoo! Keitai or create personal playlists.

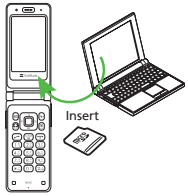
Playing Media Files

Play music or movies via Media Player (➔P.7-4, P.7-7). Select a music or movie file from folders or playlists.

Downloading Media Files

Access Yahoo! Keitai to download music or movies (➔P.7-3).

Saving Music/Movie from PC to Memory Card



Insert Memory Card with music or movies on it that was saved on PC into the handset (➔P.7-3).

Creating Playlists

Add your favorite music or movies to a playlist and create your own music or movie album (➔P.7-8).

Downloading Media Files

Access Yahoo! Keitai to download music or movies and copy them to handset.

Note

• Downloading music or movies may incur high Packet Communication charges since they contain a large volume of data.

Downloading Music & Movies

1 ▣ → ***Media***

2 Download music or movie

■ **To Download Music**
Music → ***All music*** → ***Download Music***

■ **To Download Movie**
Movie → ***All movies*** → ***Download Movies***

Saving Media Files to Phone/Memory Card

To convert music or movie file formats, software is required.

- SoftBank Mobile does not guarantee proper operation with any specific software.
- For software specifications or operations, see SoftBank Mobile Website.

1 Insert Memory Card into handset

- Follow instructions (P.11-8).

- Save files to the following folders by type:
  Music file: PRIVATE/MYFOLDER/My Items/Music
  PRIVATE/MYFOLDER/My Items/Sounds & Ringtones
  Movie file: PRIVATE/MYFOLDER/My Items/Movie
- After saving files, insert Memory Card into handset; load files to play them.

Playing Music

Folder structure is as follows.

Folder	Description
Last played/Now playing	Last/currently playing file
All music	Up to 9999 music files
Playlists	View playable files in Music in created folders
Artists	All music files by Artist
Albums	All music files by Album
Genres	All music files by Genre
Folders	All music files in Ring songs・tones and Music folders in Data Folder
Recently played music	100 most recently played files (most recent first)
Most played music	100 most frequently played files (most frequent first)

- Files on Memory Card may take longer to load.
- Only files playable via ***Music*** appear.

Media Player Music Window

Magnifier

Use handset as a magnifier (➔P.9-15).

Dictionary

Find English expressions for Japanese words or vice versa (➔P.9-15).

Alarm

Save up to ten Alarms. Use Alarm activation to activate or cancel Alarm settings. Set Alarms to repeat on specific days of the week or everyday.

Setting/Canceling Alarms

Example: Setting Alarm time

- For other items, see "Editing Alarm" (➲P.9-3).

Setting

1. ■ → ***Alarm***
2. **Select Alarm → In Alarm time field, enter Alarm time**
3. ✉ **(Save)**
   - 🔔 is shown.
   - Set or edit Alarm and press ✉ (Save), Alarm is set to ***On*** automatically.

- At Alarm time, tone sounds and indicator appears. Handset vibrates if Vibration is not ***Off***. When Snooze is ***Off***, press ■ (Stop) to stop Alarm and Vibration.
- If calling, dialing (***Connecting***... appears), or dialing (***Dialling***... appears) at Alarm time, an indicator appears. Press ■ (Stop) to clear indicator, when Snooze is ***Off***.
- When Snooze is set to something other than ***Off***, Alarm sounds at the specified interval and specified number of times until Snooze is canceled. When you press ■ (Snooze) while Alarm sounds, Alarm is set to sound again at the specified interval. Press ☎ (End) → ***End*** to stop Alarm and to clear indicator.
- If multiple Alarms are set for the same time, first set sounds first. If Schedule or Tasks Alarm is set for the same time as Alarm (***Tools***), Alarm sounds first.
- When Manner mode is active, setting in ***Manner mode setting*** (➲P.9-17) applies.
- If Camera or Voice Recorder is active at Alarm Time, Alarm sounds upon operation termination.

Canceling Alarm

1. ■ → ***Alarm*** → **Highlight Alarm →** ✉ **(On/Off)**

Editing Alarm

1. ■ → ***Alarm*** → **Select Alarm**

■ **To Set Alarm Time**
Highlight Alarm Time → Enter Alarm time → ✉ (Save)

■ **To Set Alarm to Repeat**
Repeat → Select item → ✉ (Save)
- If ***Selected day*** is selected, check day → ✉ (Done).
- If you set Alarm for every day, Alarm will activate daily.

■ **To Activate/Cancel Alarm for Holidays**
Except holidays → ***On*** or ***Off*** → ✉ (Save)

■ **To Set Snooze**
Snooze → Select an item → ✉ (Save)
- When Snooze is set to something other than ***Off***, Alarm sounds at the specified interval and specified number of times until Snooze is canceled. When you press ■ (Snooze) while Alarm sounds, Alarm is set to sound again at the specified interval. Press ☎ (End) → ***End*** to stop Alarm and to clear indicator.
- For ***Other***, enter minutes.

■ **To Set Snooze Repeat Time (s)**
Snooze repeat times → Select an item → ✉ (Save)

Opening Calendar

1 ■ → *Calendar*

Saving Schedule

Save up to 500 events including Tasks.
Example: Saving title, start date & time, end date & time.

- For other items, see "Saving to Schedule" (P.9-16).

1 ■ → *Calendar*
2 ✉ **(Add new)**
3 **Enter title**
4 **Select date & time → In Start date field, enter start date → In Start time field, enter start time**
5 **In End date field, enter end date → In End time field, enter end time → ■ (OK)**
6 ✉ **(Save)**

- In Calendar, select date before 2 to enter the date in Start date or End date field.

Viewing Schedule

1 ■ → *Calendar*
2 **Select the day to view**
3 **Select a schedule**

- To view the registered number of Schedule and Task in Calendar, press ✉ → ***Memory status***.

Tasks

Save up to 500 Schedule entries; manage with lists.

Saving Tasks

Example: Saving title, due date & time

- For other items, see "Saving Task" (➲P.9-19).

1. ■ → *Tools* → *Tasks*
2. ✉ (Add new)
3. Enter a title
4. *Due date & time* → In Due date field, enter due date → In Due time field, enter due time → ■ (OK)
5. ✉ (Save)

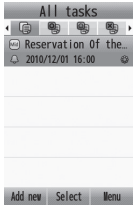
Viewing Tasks

1. ■ → *Tools* → *Tasks*

- Alternatively, ■ → *Calendar* → Select date → *Tasks*.
- In Tasks, press ⊡ to toggle (All tasks), (Completed tasks), (Uncompleted tasks), and (Expired tasks).

Marking a Task as Completed

1. ■ → *Tools* → *Tasks*
2. Highlight uncompleted task/expired task → Y! → *Status* → *Completed*



- Highlight completed tasks → Y! → *Status* → *Uncompleted tasks* to toggle tasks before due date as (Uncompleted) and tasks after due date as (Expired).

Stopwatch

Use handset as a stopwatch. Save up to ten lap times and total elapsed time.

1. ■ → *Tools* → *Stopwatch*
2. ■ (Start)
   - Press ✉ (Lap) to mark a lap. Last ten laps are saved.
3. ■ (Stop)

- Press Y! (Save) → *Yes* to save stopwatch content to notepad.
- Press ■ (Restart) to start Stopwatch again.
- Press ✉ (Reset) to clear all times.

Countdown Timer

Count down up to 60 minutes.

1. ■ → *Tools* → *Countdown timer*
2. **Enter countdown time**
3. ■ **(Start)**

- To stop counts, press ■ (Stop).
- Press ■ (Restart) to restart countdown.
- Press ✉ (Reset) to reset Countdown Timer.

World Clock

See current time in world's major cities.

Viewing World Clock

1. ■ → *Tools* → *World clock*

Selecting Areas

Set second time zone to show time in World clock.

1. ■ → *Tools* → *World clock*
   - Alternatively, press ■ → *Settings* → *Display settings* → *Clock/Calendar* → *Dual clock*
2. ◉ **to select time zone**
   - Press ◉ to select First clock field or Second clock field.
   - To set/cancel summer time setting, press ✉ (DST).
3. ■ **(Save)**

Good Night Timer

Disable Alarm/Vibration/Light for a specific period of time.

- When Good night timer is *On*, Alarm/Vibration/Light is set to *Off*, and volume level is set to 0 for functions that use sound.
- Even when Good night timer is *On*, other functions such as Voice Call, etc. are available.

Setting Good Night Timer

Note

- **Deactivate other functions before Good night timer activates. If any other function is activated, Good night timer cannot be activated.**

1. ■ → *Tools* → *Good night timer*
2. *Timer*
3. **In Start time field, enter start time → In End time field, enter end time**
   - Check *Activate now* to start timer after Good night timer is set.
4. ■ **(OK)**
5. *Repeat* → **Select an item**
   - Check *Every day* to repeat Alarm everyday.
   - If *Activate now* is selected in 3, setting in Repeat will be canceled.

6 *Alarm sounds* → *On* to activate Alarm with Alarm tone

7 ✉ (Save)

- Good night timer will be ***On*** automatically.

Canceling Good Night Timer

1 ■ → *Tools* → *Good night timer*

2 ✉ (On/Off)

Calculator

Perform four math operations of up to 13 digits.

1 ■ → *Tools* → *Useful* → *Calculator*

2 Enter numbers and operators

- To add calculation result to notepad, press ▽ → *Save to Notepad* → *Yes*. Complete calculation to save results to Notepad.
- To exit calculator, press ▽ → *End*.

- To erase a symbol in a mathematical expression, press CLEAR.
- To erase mathematical expression and result all at once, press ✉ (AC).

Notepad

Add up to 100 memos. Add memos even while placing calls (➲P.3-18).

Adding Notepad

1 ■ → *Tools* → *Useful* → *Notepad*

2 ✉ (Add) → Enter text

3 Select category field → Select category

4 ✉ (Save)

- Deleting Notepad

Barcode/Scan

Use Camera to scan printed barcodes, QR Codes, name cards, text, or keywords. Use scanned barcodes to acquire images from websites, etc.

Scanning Barcode/QR Code/Name Card/ Text/Keyword

Note

- **If text is too small to scan or is not focused on, scanned result may be incorrect.**
- **Some barcodes/text may be invalid.**
- **Scan may fail if barcode/text is not clear.**
- **Indoors, scan may fail if handset shadows barcode/text.**
- **Hold handset approximately 10 cm away from barcode/text. If it does not scan, move handset slowly to adjust the distance to fix focus.**

- Press ✉ (Macro) to set/cancel Macro.
- To adjust brightness, use ◉.

Barcodes/QR Codes

Barcode Reader automatically identifies and scans Barcodes (JAN code) and QR Codes. Use scan results for handset operations such as calling.

QR Code

1 ● → ***Tools*** → ***Useful*** → ***Barcode/ Scan*** → ***Scan barcode***

2 **Use Display to frame barcode → ● (Scan)**

- Camera focuses on and scans barcode automatically.

- Scan may fail when capturing multiple barcodes.
- JAN codes are one-dimensional codes made up of combinations of vertical bars of varying widths and spaces. Handset is not compatible with other 1D codes (e.g., ITF code, Code39, or Codebar/NW-7).
- QR Code is two-dimensional code with information in matrix.
- To save scanned result, ✉ (Save).
  To view saved barcode, in Scan barcode window, press ✉ → ***Scan results***.
- To scan multiple barcodes continuously, activate Barcode code reader → ✉ → ***Continues scan***. After a scan is complete, choose ***Yes*** to scan the next barcode.
- Split barcodes cannot be opened or saved unless all split barcodes are scanned.
- You can use any phone numbers, mail addresses, or other items for Phone Book entries if they are contained in the scanned data (➔P.9-21). For usable information, the background color of the text turns theme color; however, if the text contains any character that is not allowed to be used for that information, the background area for the following characters does not change into theme color.
- Use QR Codes for text only. Handset cannot scan QR Codes created from media files.

Name Card

Scan name card and save to Phone Book, etc.

1. ■ → *Tools* → *Useful* → *Barcode/Scan* → *Name card reader*
2. **Use Display to frame name card → ■ (Scan)**
   - Camera focuses on and scans name card automatically.

- To save the scanned result, press ■ (Register) → ✉ (Save).

Text

Scan text and save/edit it.

1. ■ → *Tools* → *Useful* → *Barcode/Scan* → *Text reader*
2. **Use Display to frame text → ■ (Scan)**
   - Camera focuses on and scans text automatically.
   - Press 📷 to adjust scanning range.

- To save the scanned result, press ■ (OK) → ✉ (Save). To check the saved text, press Y! → ***Scan results***.
- To edit the scanned result, edit after scanning.
- To toggle recognition language, press Y! → ***Language*** → ***Automatic***/***Japanese***/***English***.

Scanning a Keyword & Looking It up in Dictionary

1. ■ → *Tools* → *Useful* → *Barcode/Scan* → *Dictionary reader*
2. **Use Display to frame word → ■ (Scan)**
   - Camera focuses on and scans text automatically.
3. **Select scanned result**

- To toggle dictionary, press Y! (Switch) → ***English***/***Japanese***.

Using Barcode Files

Use a barcode file saved in Data Folder.

1. ■ → *Tools* → *Useful* → *Barcode/Scan* → *Open barcode* → **Select folder**
   - With Memory Card inserted, select a file from Pictures or Digital Camera folder.
2. **Select a file**
   - Camera focuses on and scans text automatically.

- For split barcodes, once one portion is scanned, the rest is automatically recognized and scanned. If file name or saved directory of a split barcode has been changed, select unrecognized part to be scanned.
- If file has been altered, barcode may not scan.
- If barcode is unrecognizable, notification appears.

Creating QR Code

Use Phone Book entry or enter text to create QR Code.

- A QR Code holds up to 211 single-byte or 105 double-byte characters.
- When volume of information is large, a split QR Code automatically appears (up to 16 QR Codes).
- Created QR Code is saved in Pictures in Data Folder. Check saved QR Code in Data Folder (P.9-10).

1 ■ → ***Tools*** → ***Useful*** → ***Barcode/Scan*** → ***Create QR code***

2 Create QR Code

■ **To Create QR Code from Phone Book Entry**
Phonebook → Search and select entry (P.2-13) → Select a phone number

■ **To Enter Account Details**
My details

■ **To Create Text QR Code**
Text input → Enter text

3 ■ (Save)

- To specify saving location for created QR Code, press [Y!] → ***Save to*** → Select an item → ■ (Save).

- Phone Book entries converted to QR Codes contain Name, Reading name, Phone number, Mail address, Address, and Memo. Other items will not be included.
- Press [✉] (Send) in QR Code confirmation window to create S! Mail with the created QR Code attached.

Checking Scanned Barcode/Text

Check the saved scanned result.

1 ■ → ***Tools*** → ***Useful*** → ***Barcode/Scan*** → ***Scan results***

2 Select a result

- If scanned result is too large, it will not appear. Some files cannot be opened.

Advanced

Advanced Settings ☞P.9-21

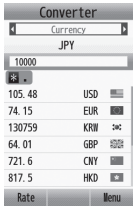
- Renaming Scanned Data
- Viewing Scanned Data Detail
- Deleting Scanned Data

Converter

Convert various currencies or units of measurement.

Converting Currencies

1. ■ → *Tools* → *Useful* → *Converter* → *Currency*
2. Select Original currency field → Select currency
3. In Original currency value field, enter value



4. See result in Converted currency value field
   - To save results to notepad, press Y! → *Save to Notepad* → *Yes*.
   - To exit converter, press Y! → *End*.

Converting Units

1. ■ → *Tools* → *Useful* → *Converter* → *Length*, *Weight*, *Volume*, *Area*, or *Temperature*
2. Select Original unit field → Select unit
3. In Original unit value field, enter value
4. See result in Converted value field
   - To save results to notepad, press Y! → *Save to Notepad* → *Yes*.
   - To exit converter, press Y! → *End*.

Split the Bill

Divide Total Cost with two different ratios.

1. ■ → *Tools* → *Useful* → *Split the bill*
2. In Total Cost field, enter price
3. In Number of people A field, enter number
4. In Number of people B field, enter number
5. ▣ to charge ratio
   - Cost and amount of carry-over for A and B are shown.

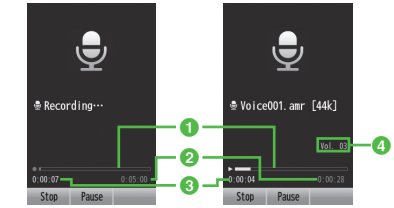
- In Split the Bill window, press Y! (Settings) → *Payment unit* → Select an item → CLEAR.
- To change method of collecting extra changes, in Split the Bill window, press Y! (Settings) → *Collect extra fee* → *On*/*Off* → CLEAR.

Voice Recorder

Record up to 60 minutes; activate from Tools, or via Menu in Data Folder, or during a call, Message creation window.

Voice Recorder Window

Use Softkeys and Multi Selector operations to control Voice Recorder.



Recording Window　Playback Window

1. Status bar
2. Recordable time (while recording)/ Playback time (while playing)
3. Elapsed time
4. Volume

Recording Sound

Recorded sound is saved to Ring Songs・Tones in Data Folder.

1. ■ → *Tools* → *Useful* → *Voice recorder*
2. ■ **(Record)**
3. ✉ **(Stop)**
   - After recording, files are saved automatically to ***Ring Songs・Tones*** under Data Folder.
   - When recordable time has elapsed, recording automatically ends.
   - After pressing ■ (Pause), press ✉ (Save) to save file.
   - Press ■ (Pause) to pause recording. Press ■ (Record) to resume recording.

- To quickly confirm recorded content, press ■ (Play). Press ■ (Pause) again to pause playback.
- To start the next recording, press Y! → ***Record***.

Playing Sound

Play sound file saved in Data Folder.

1. ■ → *Tools* → *Useful* → *Voice recorder*
2. Y! → *Data folder*
3. **Select a sound file**

- Use 🔊 to adjust volume.
- Use ◀◀ to rewind/fast forward.

Advanced

Handset Security

This handset features built-in security measures for safer handset use.

Locking & Restricting Handset Operations

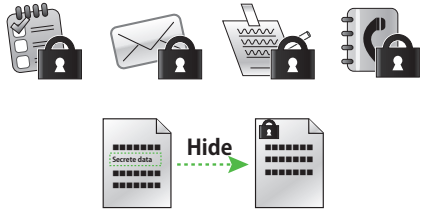
Lock handset for information security. Handset operations cannot be executed while locked.

- Password

  Use Phone Lock, Password Lock, or USIM Lock (P.10-3).

Function Lock

Activate to require Phone Password to use Phone Book, Messaging, or other privacy related functions.



Restoring Default Settings

Clear Phone Book entries; restore function settings to defaults.

Changing Phone Password

There are two security codes; Phone Password and PIN/PIN2.

Changing Phone Password

Default: Phone Password is set to "9999".

1. ■ → *Settings* → *Security* → *Change password*

2. Enter current Phone Password → ■ (OK)
3. Enter new Phone Password (four- to eight-digit) → ■ (OK)
4. Enter new Phone Password again → ■ (OK)

Advanced

Settings

- Change Phone Password (☞P.13-21)

Changing PIN/PIN2

1. ■ → *Settings* → *Security* → *Change PIN* or *Change PIN2*
   - Set *PIN certification* to *On* to enable PIN code (➲P.10-4).
2. Enter current PIN or PIN2 → ■ (OK)
3. Enter new PIN or PIN2 (four- to eight-digit) → ■ (OK)
4. Enter new PIN or PIN2 again (four- to eight-digit) → ■ (OK)

Phone Lock

The following lock functions are available:

- Phone Lock
- Password Lock
- PIN Certification
- USIM Lock

Activating/Canceling Phone Lock

Activate this function to require Phone Password each time handset is powered on.

1. ■ → *Settings* → *Security*
2. *Phone lock* → *On* or *Off*
3. Enter Phone Password → ■ (OK)

- All operations including receiving calls are not accepted unless you enter Phone Password.

Password Lock

When active, press any key in Standby for Phone Password entry window. Enter Phone Password to cancel Password Lock and access handset.

1. ■ → *Settings* → *Security*
2. *Password lock* → *On*
3. Enter Phone Password → ■ (OK)

- Even if Password Lock is set, some operations such as receiving calls can be performed.
- Upon Password Lock activation, Standby Display reappears. Press any key to show Phone Password entry window. Enter Phone Password to unlock, ***Password lock*** is automatically set to ***Off***.

Activating/Canceling PIN Code

PINs are security codes for USIM Card. For details, see "USIM Card" (➲P.1-4).

To activate PIN Certification each time the power is turned on, set this function to ***On***.

Setting

1. ■ → *Settings* → *Security*
2. *PIN certification* → *On* or *Off*
3. Enter PIN → ■ (OK)

Canceling

If PIN or PIN2 is incorrectly entered three consecutive times, PIN Lock or PIN2 Lock is activated to restrict handset operations.

Note

- **For more information about PUK and PUK2, contact SoftBank Mobile Customer Center, General Information (➲P.14-29).**
- **Entering PUK incorrectly ten consecutive times activates PUK Lock. Purchase USIM Card reissue at a SoftBank Shop.**

To cancel PIN Lock or PIN2 Lock, perform following operations.

1. In PUK Code entry window, enter PUK Code → ■ (OK)
2. Enter new PIN or PIN2 (four- to eight-digit) → ■ (OK)
3. Enter new PIN or PIN2 again → ■ (OK)

Activating/Canceling USIM Lock

Activate this function to require USIM Password to use handset with a different USIM Card.

1. ■ → *Settings* → *Security*
2. *USIM lock* → *On* or *Off*
3. Enter USIM Password (four- to eight-digit) → ■ (OK)
   - To set to ***On***, enter USIM Password (four- to eight-digit) again and press ■ (OK).

- USIM Password is dedicated to USIM Card authentication. If USIM Password matches, another USIM Card can be used in handset.
  Change USIM Password each time ***USIM lock*** is set to ***On***.
- If you forget USIM Password, insert USIM Card with ***USIM lock*** set to ***On*** and reset all settings (➲P.10-7).

Secure Remote Lock

If handset is lost, lock handset functions or clear handset data remotely from PCs or other mobile phones.
The following functions are available in Secure Remote Lock.

- Lock
- Unlock
- Clear data
- Confirm handset status
- Show history

• For details, see SoftBank Mobile Website, or contact SoftBank Mobile Customer Center, General Information (❷P.14-29).

Advanced

Settings

- Activate/Cancel Phone Lock (☞P.13-21)
- Activate/Cancel Password Lock (☞P.13-21)
- Activate/Cancel PIN Certification (☞P.13-21)
- Change PIN (☞P.13-21)
- Change PIN2 (☞P.13-21)
- Activate/Cancel USIM Lock (☞P.13-21)

Function Lock

Activating Function Lock

Activate this function to require Phone Password to open Phone Book, Calendar/Notepad/Tasks, Yahoo! Keitai, Messages, Call Log, or Data Folder.

1. ■ → *Settings* → *Security* → *Function lock*
2. Check functions → ✉ (Save)
3. Enter Phone Password → ■ (OK)

Activating/Canceling Secret Mode

Select ***Hide*** to activate this function and hide secret Phone Book entries, Messaging folders, Calendar schedules, or Tasks.

1. ■ → *Settings* → *Security* → *Secret mode*
2. Enter Phone Password → ■ (OK)
3. *Show* or *Hide*

• Powering off then back on activates ***Secret Mode***.

Activating/Canceling Secret Data Folder

Activate ***Secret mode*** to see additional Secret folders within ***Data Folder***.

1. ■ → *Settings* → *Security* → *Secret data folder*
2. Enter Phone Password → ■ (OK)
3. *Show* or *Hide*

• Powering off handset then back on activates ***Secret data folder***.

Activating Mobile Tracker

Activate this function to send SMS notification to a specified address when a different USIM Card is inserted. Specify up to two addresses.

1. ■ → *Settings* → *Security* → *Mobile tracker*
2. Enter Phone Password → ■ (OK)
3. Select Activation field → *On*
4. Select Recipients field

5 Select To field → *Direct input* → Enter address → ✉ (Done)

- To enter an address from Phone Book, select To field → ***Phonebook*** → Search and select entry (P.2-13)
  → Select a phone number.

6 Select Sender field → Enter sender name

7 ✉ (Save)

- When a different USIM Card is inserted, SMS notification is sent to the specified address upon handset activation. Nothing appears on handset whose USIM Card is replaced. If Phone Password is incorrectly entered three consecutive times when trying to set Mobile Tracker, SMS notification is also sent.
- To delete a recipient address, press ● and select ***Remove*** in 5.

Advanced

Settings

- Activate/Cancel Function Lock (☞P.13-21)
- Activate/Cancel Secret Mode (☞P.13-21)
- Set Secret Mode on Sub-folder in Data Folder (☞P.13-21)
- Set Mobile Tracker (☞P.13-21)

Restoring Default Settings

Clearing Phone Memory

Clear Data Folder, Messaging, handset Phone Book entries, Calendar/Tasks, Notepad, or User Dictionary. Alternatively, clear all handset files at once.

1 ● → *Settings* → *Memory settings* → *Phone memory* → ✉ (Clear)

2 Check items → ✉ (Clear)

3 Enter Phone Password → ● (OK) → *Yes*

Resetting Settings

Reset settings to clear saved contents/settings and resort default settings.
The following settings are affected.

Item	Affected Settings
—	• ***Alarms***

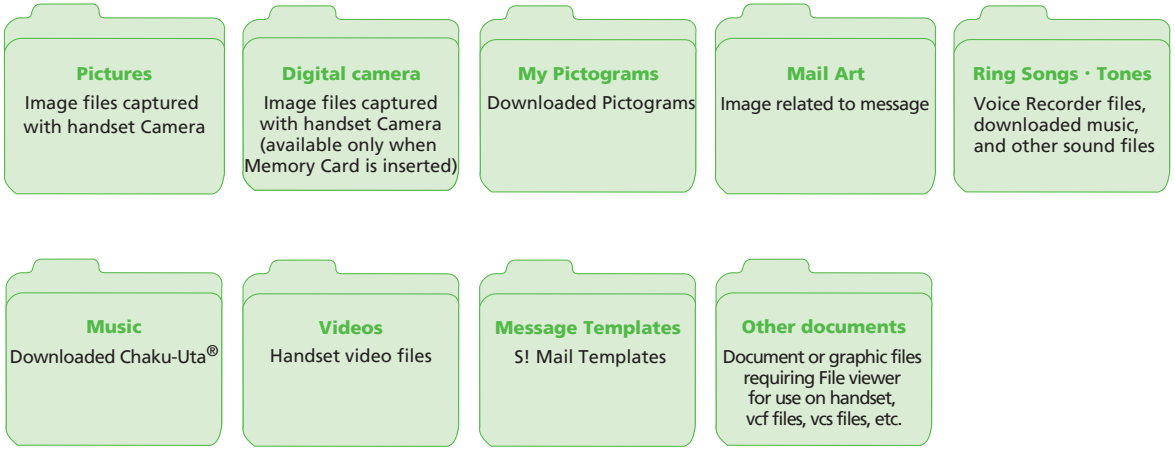
Data Folder

Handset files are organized in folders according to file format.

Default Folders

Handset automatically sorts files into these folders:



- Save up to 999 files/folders in each default folder.
- In a folder, use ***Memory status*** to confirm memory. Alternatively, confirm memory in ***Settings*** (➔P.11-9).
- In Data Folder, press [Y!] → ***Memory switch*** → ***Phone+Memory card***/***Phone***/***Memory card*** to toggle Data Folder.
- appears in some folders as downloaded site shortcut. Select the link to access website via Yahoo! Keitai.
- If files in one default folder are too large, handset performance may fall.

Viewing Files

View files in Data Folder, like image, animation, etc. Select Data Folder, file list appears.

1 [●] → ***Data Folder***

2 **Select a file location**

3 **Select a file in List window**

- **File List Indicators**
  - : Nontransferable
  - : Nontransferable and unusable
  - : Protected
  - : Copy protected file (transferable, content key valid)
  - : Copy protected file (transferable, content Key expired)
  - : Copy protected file (nontransferable, content key valid)
  - : Copy protected file (nontransferable, content key expired)
  - : Used as Wallpaper/Ringtone, etc.
- Nontransferable/copy protected files other than preinstalled ones cannot be used.
- **Activating Camera/Voice Recorder from Data Folder**
  - With Pictures folder open, activate Camera in Camera mode (➔P.11-11).
  - With Videos folder open, activate Camera in Video mode (➔P.11-11).
  - With Ring Songs・Tones folder open, activate Voice Recorder (➔P.11-11).

Using Image Viewer

View images in Portrait or Landscape view. Wide image is shown as small image to show entire image.

1 [●] → ***Data Folder*** → ***Pictures***

2 **Select a file**

3 [Cam] **to change image**

- Some images may not appear.

Zooming In/Out

1. ● → *Data Folder* → *Pictures* → Select an image
2. ● (Zoom)
3. Y! / ✉ to zoom in/out
   - To scroll window, use ⊙.

Saving Face Link

Link images to Phone Book entries to place calls or message directly from still images.
Link up to ten Phone Book entry items to a still image.

Capturing & Setting Still Images

1. 📷
2. Y! → *Settings* → *Settings* → *Setup* → *Face link display* → *On* → ✉ (Done)
3. ● (📷)

- Available only when Face Link is ***On*** and ***Auto save*** is ***Off*** or ***On (Preview manual).***
- If captured image is recognized, frame appears.
- If Face Link has been saved, name appears. If not, ***?*** appears.
- If captured image is not recognized, frame does not appear. The image is saved and Viewfinder reappears.
- If ***Auto save*** is ***On***, image will be saved and Viewfinder will reappear.

4. Y! → *Edit face link*
5. Search and select entry (➔P.2-13)
6. ● (OK)

Adding Data to Saved Image

1. ● → *Data Folder* → *Pictures*
2. Select a file
3. Y! → *Face link*
4. Y! → *Add name tag*
5. Search and select entry (➔P.2-13)
6. ⊙ to move name tag → ● (Save)

Face Link

Place a call or message via Face Link image.

Calling/Messaging from Image Window

1. ■ → *Data Folder* → *Pictures* → Select file
2. Y! → *Face link* → ■ ( )
   - If multiple Face Links are set, use ◆ to select one.
3. Place a call or message

- Confirming File Details
- Capturing Document View Page
- Going to PDF/DOC File View Pages
- Searching PDF/DOC File Text

Managing Files/Folders

Make sub-folder under default folders. Copy, move, or delete folder or file.

Creating Folders

Create sub-folder in default folders.
Use ***Set secret*** to hide created folder.

1. ■ → ***Data Folder***
2. **Select default folder**
3. Ⓨ → ***Manage*** → ***Create folder***
   - If there is no sub-folder or file in the folder, menu varies.
4. **Enter folder name**
   - With Memory Card inserted, select ***Phone***/***Memory card*** → Enter folder name.

- New folder cannot be created in a created folder.

Renaming File/Folder

1. ■ → ***Data Folder***
2. **Select default folder → Highlight a file or sub-folder**
3. Ⓨ → ***Manage*** → ***Rename/Rename folder***
4. **Enter name**

- Protected files cannot be renamed.

Moving File/Folder

When Memory Card is inserted, move files or sub-folders between handset (Phone) and Memory Card.

Note

- **Protected files cannot be moved.**
- **Downloaded files may not appear/play properly if moved to another device or if a different USIM Card is inserted.**
- **Nontransferable and unusable files (), protected files (), or nontransferable and Copy protected files (or) cannot be moved to Memory Card.**

1. ■ → ***Data Folder***
2. **Select default folder**
3. **Highlight a file or sub-folder →** Ⓨ **→ *Move***
4. **Move files or sub-folders**
   - ■ **To Move an Item**
     Selected
   - ■ **To Move Multiple Items**
     Multiple → Check files or sub-folders → ✉ (Move)
   - ■ **To Move All Files/Sub-folders in the Same Folder**
     All
5. **Select a destination folder → *Move here***
   - When Memory Card is inserted, select ***Phone*** or ***Memory card***, then select a move destination folder.

- If file/sub-folder with the same name exists, text entry window appears; edit file/sub-folder name.
- To move a file set for Wallpaper or Ringtone to Memory Card, a confirmation appears. Choose ***Yes*** to release the setting and move the file. When moving multiple or all files, choose ***No*** to move only files without set functions. Press CLEAR / (Cancel) to cancel moving.

Copying Files/Folders

Paste copied file in the folder/sub-folder, or paste copied sub-folder in the folder. When Memory Card is inserted, copy folders between handset and Memory Card.

Note

- **Nontransferable files cannot be copied.**

1. ■ → ***Data Folder***
2. **Select default folder**
3. **Highlight a file or sub-folder →** Ⓨ **→ *Copy***
4. **Copy file or sub-folder**

■ **To Copy an Item**
Selected

■ **To Copy Multiple Items**
Multiple → Check files or sub-folders → ✉ (Copy)

■ **To Copy All Files/Sub-folders in the Same Folder**
All

5 Select a destination folder → *Paste here*

- When Memory Card is inserted, select ***Phone*** or ***Memory card***, then select a copy destination folder.

- When pasting files/sub-folders in the same location as the original, numbers such as "_001" are automatically added to pasted file/sub-folder names.
- If file/sub-folder with the same name exists, text entry window appears; edit file/sub-folder name.

Deleting Files/Folders

1 ■ → *Data Folder* → Select a file location

2 Highlight a file in List window → Y! → *Delete*

3 Delete a file

■ **To Delete an Item**
Selected → ***Yes***

■ **To Delete Multiple Items**
Multiple → Check files → ✉ (Delete) → ***Yes***

■ **To Delete All Files in the Same Folder**
All → Enter Phone Password → ■ (OK) → ***Yes***

- To delete folder, highlight folder → Y! → ***Delete folder*** → (Enter Phone Password → ■ (OK) as required) → ***Yes***.
- When deleting a file that is set to a function or protected, a confirmation appears. Choose ***Yes*** to cancel the setting and delete the file. When deleting multiple files, choose ***Yes*** → ***Except protected*** to delete only files not set to functions and unprotected files.
- When deleting files with Content Key, a confirmation appears. Choose ***Yes*** to delete both file and Content Key.

Memory Card

Handset is compatible with microSD™ and microSDHC™ Memory Card. Purchase Memory Card to use Memory Card-related handset functions.

- Use only recommended Memory Card. Other memory cards may not perform properly.
- Do not place labels or stickers on Memory Card. These items may affect card performance or result in lost information.
- Never disassemble or modify Memory Card.
- Do not expose Memory Card to strong impacts, pressure or liquids.
- Do not touch Memory Card terminals or expose them to metal objects.
- Do not expose Memory Card to dust, high humidity, or excessive heat.
- Do not use in the presence of corrosive gases.
- Avoid heat sources and do not dispose of in fire.
- Memory Card is a consumable item. Card performance deteriorates with usage.

- SoftBank Mobile recommends 64, 128, 256, 512 MB, 1, 2 GB microSD™/microSDHC™ Memory Cards or 4, 8, 16 GB microSDHC™ Memory Cards.

Note

Protect Important Information

- **Memory Card files may be lost or damaged by accident or due to a malfunction. Back up entries and store separately. SoftBank Mobile is not liable for damage from lost or altered information.**
- **Memory Cards do not have Write Protection Switch. There is a risk of accidental erasure or overwriting of files.**

Initializing Memory Card

Formatting a Memory Card on handset deletes all previously saved files, etc. Format Memory Card on handset before use.

1 ■ → *Settings* → *Memory settings* → *Memory card* → ✉ (Format) → Enter Phone Password → ■ (OK) → *Yes*

Memory Card Installation

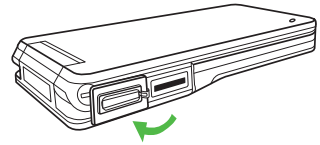
Turn handset power off before inserting or removing Memory Card.

Note

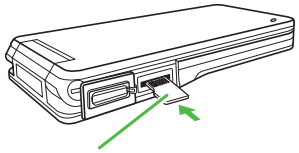
- **Do not apply excessive force when inserting/removing Memory Card; may damage Memory Card or handset.**
- **Take care not to lose removed Memory Card.**
- **Avoid touching/damaging Memory Card contacts when inserting/removing it.**
- **Do not remove battery/Memory Card while card files are being accessed; may damage handset/card or result in damaged/lost files.**

Inserting

1 Open Port Cover



2 With contacts up, insert Memory Card until it clicks



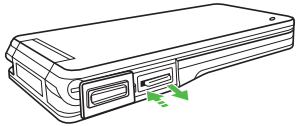
Contacts side up

3 Close Port Cover

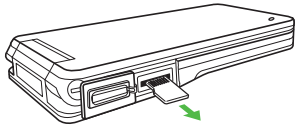
Removing

1 Open Port Cover

2 Push Memory Card lightly until it clicks



3 Card pops out; remove it



4 Close Port Cover

Viewing Memory Card Files

Via infrared → (P.12-3)

Sorting Files

■ → ***Data Folder*** → Select a file location → Y! → ***Sort by*** → Select an item

- Sort by following order:
  - Descending order by date (***Date***)
  - File type (***Type***)
  - File name (***Name***)
  - Ascending order by file size (***Size***)
  - Title (***Title***)
  - Content Key status (***Content key type***)
- Folders appear at the top of list.
- When selecting ***Type***, files are sorted in alphabetical order according to file extensions.
- When selecting ***Name***, files are sorted in order of numerics → alphabets → Japanese syllabary.
- Files in Message templates folders cannot be sorted by ***Type***.
- When selected ***Content key type***, files appear as follows: Unrestricted → Nontransferable → Copy Protected (content key valid) → Copy Protected (content key expired) → Invalid Nontransferable.
- Files without title names cannot be sorted by ***Title***.

Adding Sound Files/Video Files to Playlist

■ → ***Data Folder*** → ***Ring Songs*** · ***Tones***, ***Music***, or ***Videos*** → Highlight a file → Y! → ***Manage*** → ***Add to playlist***

- To create a new playlist and add files to it, press ✉ (New) in Add to Playlist window.
- Adding to Playlist is unavailable for some files.

Managing Content Key in Data Folder

■ → ***Data Folder*** → Select a file location → Y! → ***Manage*** → ***Content key info*** → Select Content Key to view

- When a folder containing a Content Key is opened, all Data Folder/Memory Card Content Keys appear.
- If no files require Content Key, ***Content key info*** does not appear.

Deleting Content Key

■ → ***Data Folder*** → Select a file location → Y! → ***Manage*** → ***Content key info***

■ To Delete an Item

Highlight a Content Key → Y! → ***Delete*** → ***Selected*** → ***Yes***

■ To Delete all Items

Y! → ***Delete*** → ***All*** → Enter Phone Password → ■ (OK) → ***Yes***

- If no files require Content Key, ***Content key info*** does not appear.

Setting Secret in Sub-folder

■ → ***Data Folder*** → Select Sub-folder and save location → Highlight folder → Y! → ***Set secret*** → Enter Phone Password → ■ (OK)

- Only folder saved in handset is selectable.
- To release the secret setting, press Y! → ***Unset secret*** → Enter Phone Password → ■ (OK).

Canceling Secret Setting Temporarily

■ → ***Data Folder*** → Select a folder location → Y! → ***Unlock temporarily*** → Enter Phone Password → ■ (OK)

Activating Camera Mode

■ → ***Data Folder*** → ***Pictures*** → Y! → ***Take photo***

Activating Video Mode

■ → ***Data Folder*** → ***Videos*** → Y! → ***Record video***

Recording Sound

■ → ***Data Folder*** → ***Ring Songs*** · ***Tones*** → Y! → ***Record sound***

Setting & Canceling File Lock

■ → ***Data Folder*** → Select a file location → Highlight a file → Y! → ***Lock/Unlock***

- Save file to handset to set file lock.
- Set file lock to restrict renaming, moving, or deleting.

Setting Images as Wallpaper, etc.

■ → ***Data Folder*** → Select a file location → Select a file → Y! → ***Set as***

■ To Set Image as Wallpaper

Wallpaper → Preview image → ■ (Set)

■ To Set Image as Incoming Image

Caller ID → Search and select Phone Book entry (➲P.2-13) → ■ (Set)

- This setting is unavailable for some files.

Setting Sound File to Ringtone in Normal Mode

■ → ***Data Folder*** → Select a file location → Highlight a file → Y! → ***Set as***

■ To Set to Ringtone for Each Function

Voice ringtone/Message ringtone/Missed call notification ringtone/S! Quick News ringtone/Delivery report ringtone

■ To Set as Ringtone for Phone Book Entry

Caller ringtone → Search and select entry (➲P.2-13)

- If a Memory Card file is set as incoming image or Ringtone, copy file to handset first confirmation appears. If file is copy protected, move file to handset first confirmation appears. Choose ***Yes*** to complete setting.
- Only copy protected MPEG4 AAC, AAC+, or Enhanced AAC+ files can be set. However, copy protected files with play count restrictions cannot be set.

Setting Video File to Ringtone in Normal Mode

■ → ***Data Folder*** → Select a file location → Highlight a file → Y! → ***Set as***

■ To Set to Ringtone for Voice Call

Voice ringtone

■ To Set to Ringtone for Phone Book Entry

Caller ringtone → Select entry (➲P.2-13)

- If a Memory Card file is set, copy to handset confirmation appears. For a copy protected file, move to handset confirmation appears. Select ***Yes*** to complete settings.
- Only copy protected MPEG4 AAC, AAC+, or Enhanced AAC+ files can be set. However, copy protected files with play count restrictions cannot be set.

Registering File to Other Functions

■ → ***Data Folder*** → ***Other documents*** → Select vcf/vcs/vnt/opml file → ■ (Register)

- Register vcf, vcs, vnt, opml, etc. files saved in Data Folder to Phone Book, Calendar, Notepad or RSS feed.

Memory Status

Deleting Registered/Saved Data

■ → ***Data Folder*** → ***Memory status*** → ***Phone/Memory card*** as required → Highlight item → ✉ (Delete) → ***Yes***

■ To Delete an Item/Multiple Items

Check items → ✉ (Delete) → ***Yes***

■ To Delete all Items

Y! (Mark all) → ✉ (Delete) → Enter Phone Password → ■ (OK) → ***Yes***.

- Alternatively, press ■ → ***Settings*** → ***Memory settings*** → ***Memory status*** → Select item → ***Phone memory/Memory card*** as required → ✉ (Delete) → ***Yes*** → Select item → ✉ (Delete) → ***Yes***.
- Delete message folder messages, Data Folder files, Calendar/Tasks, Phone Book entries or Notepads.
- If file (s) are locked or set for another function, a confirmation appears.

File Transfers & Backup

Transfer files via Infrared, etc. Use S! Addressbook Back-up (SAB)* to back up handset Phone Book entries.
*S! Addressbook Back-up requires separate subscription.

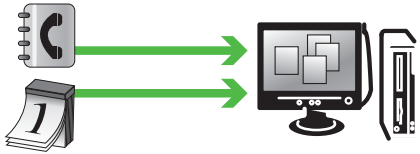
File Transfers

Use these functions to transfer handset files:

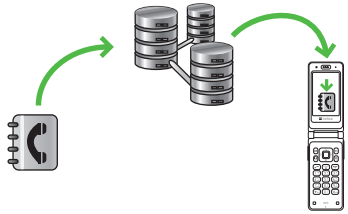
- Infrared (➔P.12-3).
- USB Connection (➔P.12-4).

File Backups

Back up handset files to Memory Card or PC (➔P.12-5).



Back up Phone Book entries to Server via S! Addressbook Back-up.
Restore lost Phone Book entries from S! Addressbook Back-up.
Edit SAB via PC (➔P.12-7).



Infrared

Exchange files wirelessly with infrared-compatible handsets, PCs or other devices.

- Handset Infrared is based on IrMC1.1. Transmissions may be unavailable for some functions, even when IrMC1.1 is supported on the other party's handset.
- Transmissions may be inhibited in direct sunlight, under fluorescent lighting or near infrared devices.
- Send and receive Phone Book entries or Calendar entries, Account Details, Schedules, Tasks, still images, videos, sound files, music files, etc. Send either all Phone Book entries, Calendar/Tasks or Bookmarks/Notepad/Received msg./Drafts/Sent msg. in a single transfer.

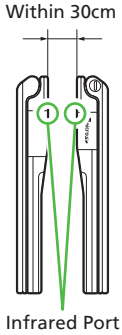
- Authorization Code is a four-digit code used to execute infrared file transfers between devices. Enter same Authorization Code on both devices when using Transfer All.

Note

- **Infrared is unavailable while Internet services are in use, or while editing messages/files.**
- **Some received files cannot be saved on handset.**

Aligning Infrared Ports

- Place devices within 30 cm. Align device ports. Do not place objects in between devices.



- Maintain port alignment until transmission ends.
- A soiled port may inhibit transmission. Clean port with a soft cloth beforehand.
- If transfer fails, a confirmation appears: "Device not found Reconnect?" Choose ***Yes*** to retry.

Sending Files

First, activate Infrared on the other device.

Sending Items One at a Time

1. ■ → ***Infrared*** → ***Transfer files***
2. **Select folder** → **Check files**
3. ✉ **(Send)**

- Alternatively, in list, Y! → ***Send*** → ***Via infrared*** → Check files → ✉ (Send).
- In Details/Playback window, Y! → ***Send*** → ***Via infrared***.

Transferring All

1. ■ → ***Infrared*** → ***Transfer all***
2. **Enter Phone Password** → ■ **(OK)**
3. ***Phonebook, Calendar/Tasks, Bookmarks, Notepad, Received msg., Drafts or Sent msg.***
   - For ***Phonebook***, choose ***Yes*** to transfer images.
4. **Enter Authorization Code (four-digit)** → ■ **(OK)**

Receiving Files

Note

• Files cannot be received when Key Lock is active or during Software Update.

Receiving One Item at a Time

1. ■ → *Infrared* → *Receive*
   - Handset is ready to receive files.
2. **Begin sending from other device within three minutes**
3. **Save confirmation appears, choose *Yes***
   - To save image file, choose ***Pictures*** or ***Mail Art***.
   - To save pictograms, choose ***Pictures***, ***Mail Art*** or ***My Pictograms***.
   - Press [Cancel] (Cancel) to cancel receiving.
   - Press [End] to terminate reception.

• If vcf file contains incoming image exceeding 100KB, handset deletes the image then saves it in Phone Book.

Receiving All

1. ■ → *Infrared* → *Receive*
   - Handset is ready to receive files.
2. **Begin sending from other device within three minutes**
3. **Enter Authorization Code (four-digit) → ■ (OK)**
   - Enter same Authorization Code as sender.
4. **Select a saving method**

   ■ **To Add Files as New Entries**
   Add new

   ■ **To Overwrite Current Entries**
   Delete & Overwrite → ***Yes*** → Enter Phone Password → ■ (OK)
   - Receiving all entries deletes existing handset entries except for Account Details. Receiving Account Details deletes existing Account Details except for handset phone number.
   - Press [Cancel] (Cancel) to cancel receiving.
   - Press [End] to terminate reception.

Advanced

Settings

- Receive Infrared Transmission (☞P.13-23)
- Transfer Account Details (☞P.13-23)
- Transfer Files (☞P.13-23)
- Transfer All Phone Book Entries, Calendar/Tasks , Bookmarks, Notes or Messages at Once (☞P.13-23)

USB Connection

Connect handset to PC to transfer files between devices.
Handset supports USB 2.0.
Install USB driver first. For installation instructions, PC operating environment, etc., access SAMSUNG Website (http: //jp.samsungmobile.com/pc/lineup/001download.html).

USB Connection

The following operations are available:

- Transfer handset Data Folder files to PC
- Import PC files and save to Data Folder
- Perform Packet Communications

Note

• Using handset to access the Internet via PC or PDA (Mobile Data Communication) rapidly incurs high Packet Communication charges. Take notice of large Packet Communications when using Mobile Data Communication.

Sending/Receiving in Mass Storage

With Memory Card inserted, connect handset to PC via USB Cable to manage card files on PC.

Connecting/Disconnecting to a PC

1. **Connect handset to PC via USB Cable**
2. ● → *Settings* → *Connectivity* → *Mass storage* → *Yes*
3. **Enter Phone Password → ● (OK)**
4. **Use PC to access Memory Card files**
   - Mass Storage is unavailable while receiving S! Mail, or using Samsung New PC Studio.
   - Calling and Messaging are unavailable in Mass Storage.
5. **On PC, perform device removal**
6. **In Mass storage, Y! (Exit)**
7. **Disconnect USB Cable**

Note

- **Never disconnect USB Cable before safely removing device from the PC first.**

Advanced

Settings

- Activate Mass Storage (☞P.13-23)

Memory Card Backup

Back up Phone Book entries, etc. to Memory Card (package backup). Restore backed up items as required (package restoration).

- Restore from Backup in case of accidental data loss.
- Backups are saved by type (transfer date is file name).
- Available Backup types

- Phone Book
- Calendar
- Tasks
- Received msg.
- Drafts
- Sent msg.
- Unsent msg.
- Notepad
- Contents keys
- Bookmarks

- Use Backup to save files, share information between Memory Card-compatible handsets, or move files to a newly purchased handset.

Backup Precautions

- Unavailable when battery is low.
- During backup or restoration, handset transmissions are not possible.
- Some files cannot be backed up. Some backed up files may not be usable on other SoftBank handsets or PCs, etc.
- Backup may fail if handset/Memory Card memory is too low.
- Handset holds up to 500 Calendar/Tasks entries. When 500 entries are restored from Memory Card, a confirmation appears and extra entries are not saved.
- Yahoo! Keitai, PC Site Browser bookmarks are backed up.
- If a backed up bookmark is too large it may not be restorable.
- Some images set to Phone Book entries may not be transferred because of size.
- Backup data saved on Memory Card is not accessible on handset until restored from Memory Card.
- When backing up Content Keys, note the following:
  - Backup file can hold only one Content Key at a time. To back up another Content Key, a confirmation appears and the previous backup file is overwritten (to keep the previously backed up files, restore the Content Key to handset from Memory Card and then perform backup again).
  - Restoring a file with a Content Key to handset adds the Content Key to handset without overwriting any existing Content Keys on handset.

Backing up to Memory Card Manually

1. ■ → *Settings* → *Backup & Restore* → *Backup*
2. *Yes* → Enter Phone Password → ■ (OK)
3. *Phonebook*, *Calendar*, *Tasks*, *Received msg.*, *Drafts*, *Sent msg.*, *Unsent msg.*, *Notepad*, *Contents keys* or *Bookmarks*
4. Confirmation appears, choose *Yes*
   - Press Y! (Cancel) → *Yes* to cancel backup.
   - If *Contents keys* backup file already exists, an overwrite confirmation appears. Press ✉ (Yes) to overwrite the file.

Loading from Memory Card

Selecting Item to Back up

1. ■ → *Settings* → *Backup & Restore* → *Restore*
2. *Yes* → Enter Phone Password → ■ (OK) → *Selected item*
3. *Phonebook*, *Calendar*, *Tasks*, *Received msg.*, *Drafts*, *Sent msg.*, *Unsent msg.*, *Notepad*, *Contents keys* or *Bookmarks*
4. Select a file → If a confirmation appears, *Add*/*Overwrite*
   - To delete a backup file, highlight file → Y! (Delete) → *Yes*.
   - To cancel restoration, press Y! (Cancel) → *Yes*.

Backing up from Auto Back up

1. ■ → *Settings* → *Backup & Restore* → *Restore*
2. *Yes* → Enter Phone Password → ■ (OK) → *Auto backup item*
3. Select item → *Yes*
   - To cancel backup, press Y! (Cancel) → *Yes*.

Backing up to Memory Card Automatically

Note

- Separate subscription is required to use this function.
- Before setting, set *Auto sync settings* to *On* in S! Addressbook Back-up setting (➔P.12-8).
- Default: *Auto backup* is *On*, and *Backup cycle* is *Every week*.
- Auto Backup starts only when Handset is in Standby.
- If Auto Backup is disturbed, it starts at the time set for the next day.

1. ■ → *Settings* → *Backup & Restore* → *Auto backup*
2. *Backup cycle*
3. *Cycle*
   - ■ To Back up Once a Week
     Weekly → Select day
   - ■ To Back up Once a Month
     Monthly → Enter date
4. *Start time* → Enter start time → CLEAR
5. *Backup items* → Check items → ✉ (Save)
6. *Encryption settings* → *Phonebook*/*Calendar*/*Tasks*/*Messages*/*Notepad*/*Bookmarks* → *On*/*Off*

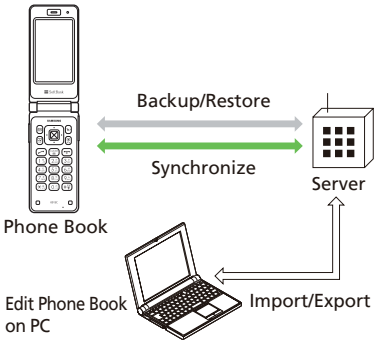
Advanced

Settings

- Back up Memory (☞P.13-22)
- Restore Memory (☞P.13-22)

S! Addressbook Back-up (SAB)

Back up handset Phone Book entries on Server or synchronize handset Phone Book entries with SAB. Restore lost handset Phone Book entries from SAB.



Before Using S! Addressbook Back-up

Note

- **SAB use requires separate subscription.**
- **Connections between handset and SAB (Backup, Restore, or Update) incur Packet Communication charges.**

- If you should change handsets, select an SAB compatible handset to take over SAB entries.
- After an application, when Network Information is retrieved*, ***Auto sync settings*** will be ***On*** automatically. After editing Phone Book, backup will start automatically.
- Even after ***Auto sync settings*** is set to ***Off***, if Network Information is retrieved Auto Sync will be initialized and set to ***On***.
- Confirm ***Auto sync settings*** is set to ***Off*** after canceling the services.

Sync mode will be set to ***Normal***. Auto Sync starts about ten minutes after editing of Phone Book has begun.

Precautions for Synchronizing

Available synchronization modes are as follows.

Sync Mode	Description
Normal	Backs up handset entries and updates SAB. If handset Phone Book entry and SAB entry item are both updated, SAB entry item takes priority.
Sync from Client	Backs up updated handset entries.
Backup	Deletes SAB entries and uploads handset entries.
Sync from Server	Downloads updated SAB entries to handset.
Restore	Deletes all the latest handset entries and downloads SAB entries to handset (only the 001SC).

- Synchronizing in ***Normal*** mode is performed regardless of Sync mode setting when using SAB for the first time or the last Sync was not completed correctly by canceling, etc.

- These items cannot be synchronized with SAB; using Restore for these items will delete them from handset:
  - Picture
  - Ringtone settings, Vibration settings
  - Blood type

- Select backup/restore timing and Sync mode carefully to avoid accidentally deleting entries.
  - Delete all handset entries then select ***Normal***, ***Sync from Client***, or ***Backup*** to delete all SAB entries.
  - Delete all SAB entries then select ***Normal***, ***Sync from Server***, or ***Restore*** to delete all handset entries.
- If number of entry items savable on handset varies from SAB, synchronization will reflect lower number.
- When SAB service is canceled, Phone Book entries on Server are deleted.

Synchronizing Phone Book Entries

Connect to SAB to synchronize SAB entries with handset Phone Book entries.

Note

• Starting Sync connect to network. Packet Communication charges apply. Network connection is automatically disconnected with synchronization.

1 ■ → ***Phone → S! Addressbook Back-up → Start sync***

- Synchronize in ***Normal*** mode.
- If synchronize in ***Sync from Client/Backup/Sync from Server/Restore*** mode, press ■ → ***Phone → S! Addressbook Back-up → Details → Backup/Restore*** → Select an item.
- Alternatively, press ■ → ***Entertainment → S! Addressbook Back-up → Start sync***.

Setting Auto Sync

If ***Auto sync settings*** is set to ***On***, setting frequency and Sync mode are required.

1 ■ → ***Phone → S! Addressbook Back-up → Details → Auto sync settings***

- Alternatively, press ■ → ***Entertainment → S! Addressbook Back-up → Details → Auto sync settings***.

2 ***On/Off → On***

3 **Set items**

■ **To Back up Once a Month**
Monthly → In Date field, enter date → In Time field, enter time → ■ (OK)

■ **To Back up Once a Week**
Weekly → Select day → In Time field, enter time → ■ (OK)

■ **To Back up Ten Minutes after Editing Phone Book Entries**
After editing phonebook

4 ***Normal/Sync from Client/Backup/Sync from Server/Restore***

5 ■ **(OK)**

- In 2, set ***On/Off*** to ***Off*** to cancel ***Auto sync settings***.

Advanced Settings

Troubleshooting

Problem	Possible Cause	Solution
Handset does not turn on	Is battery empty?	Replace or charge battery.
	Is battery installed in handset?	Install battery correctly.
When power is turned on, PIN entry window appears	Is ***PIN certification*** set to ***On***?	If ***PIN certification*** is ***On***, enter PIN.
When power is turned on, USIM Password entry window appears	Is ***USIM lock*** set to ***On***?	If ***USIM lock*** is ***On***, enter USIM Password.
Please insert USIM card, Incorrect USIM **or** ***USIM card failed*** **appears when handset is turned on or executing a function**	Is USIM Card correctly installed?	If the message appears even though USIM Card is correctly installed, it may be damaged.
	Is USIM Card still being loaded?	Try again after a while.
	Is an incorrect USIM Card being used?	Check to see if correct USIM Card is being used.Use USIM Card specified by SoftBank.
	Are there foreign particles on USIM Card IC chip?	Remove foreign particles with a clean, dry cloth, and then install USIM Card correctly.
圏外 or OUT appears and no calls can be placed	Handset is out-of-range.	Move to a place where the signal is stronger and try again.
Calls are interrupted or disconnected	Does 圏外 or OUT appear?	Move to a place where the signal is stronger and try again.
	Is battery empty?	Replace or charge battery.

Problem	Possible Cause	Solution
Unable to place a call	Is Call Barring set?	Deactivate Call Barring.
	Is ***Offline*** set to ***On***? (appears)	Set ***Offline*** to ***Off***.
Unable to open Phone Book entry, Data Folder, Call Log, Calendar, Notepad, Tasks, Yahoo! Keitai, or Messaging	Is ***Function lock*** set?	Cancel ***Function lock***.
Clicking noise is heard during a call	-	Noise may be generated when signal is weak or while moving between coverage areas.
Receiver/speaker volume is low, or sound quality is poor.	Is volume setting adequate, or is ***Clear talk*** set to ***On***?	Change each setting (➲P.3-3, P.3-18).
	Are any foreign objects attached on Microphone, Speaker or Air Vent?	Clean handset (➲P.14-5).

Problem	Possible Cause	Solution
Unable to charge battery	Is AC Charger Connector securely inserted into handset?	Check which way the AC Charger connector is facing then securely insert it.
	Is AC Charger plug securely inserted?	Insert AC Charger plug securely.
	Is battery installed in handset?	Install battery correctly.
	Are handset terminals and AC Charger clean?	Clean contacts with a dry cotton swab.
	Was battery charged in ambient temperatures below 5 °C or above 40 °C?	Charge battery in ambient temperatures between 5 °C and 40 °C.
	Battery may need to be replaced.	Install a new battery.
	Does battery always lose its charge quickly after being charged?	Battery life has expired. Replace with a new battery.
	Does handset or battery become very warm during charging?	If the temperature rises too much, charging may stop. After handset and battery are cool, retry charging.
Devices become hot	During charging, AC Charger may heat up.	If handset is safe to touch, heat level is normal. If it is too hot to touch, immediately stop charging and contact Customer Service (➔P.14-29).
	Handset may heat up during charging/long calls.	

Problem	Possible Cause	Solution
Battery drains quickly	Battery may drain quickly depending on the operating environment (ambient temperature, charging conditions, or signal strength), operations, and settings.	Use handset in an appropriate environment and reduce operations requiring high power (➔P.1-6).
Display flickers	Is handset being used near fluorescent light?	Use handset as far away from fluorescent light as possible.
	-	Default: ***Brightness*** is set to ***Auto adjustment***; display might repeatedly brightens or darkens in accordance with the ambient environment. Unmark ***Auto adjustment*** (➔P.13-6).
Display is dim or unlit	-	This may be due to the characteristics of Display and not a problem. The time until Display is dimmed or unlit can be changed by adjusting the Backlight time.
Unable to play music via speaker	Is ***Manner mode*** set?	Cancel ***Manner mode***.
	Is the Stereo Earphone Microphone (Optional) connected?	Disconnect the connector for the Stereo Earphone Microphone (optional) from handset.
Too many applications are already running. **appears**	Too many functions are active.	Close some.

Problem	Possible Cause	Solution
Unable to establish USB connections using Samsung New PC Studio	Is USB driver installed?	A driver must be installed in order to communicate with a computer via a USB cable. Download USB Driver Installer from SAMSUNG Website (http://jp.samsungmobile.com/pc/lineup/001download.html) and install the driver.
	Is connection method set correctly on the computer?	Use the Samsung New PC Studio Connection manager to match the communications being used, or set to USB with the connection wizard.
	Is USB connection port setting the same for PC and software the same?	Make sure port settings match those set for Samsung New PC Studio Connection Manager or Connection Wizard.
Phone Book entry, Message folder, schedule event in Calendar, or Tasks do not appear	In ***Security***, is ***Secret mode*** set to ***Hide***?	In ***Security***, set ***Secret mode*** to ***Show***.
	Is ***Secret*** under each function set to ***On***?	Select ***Unlock temporarily*** from [Y!] on the window to view information.
Sub folder does not appear	In ***Security***, is ***Secret data folder*** set to ***Hide***?	In ***Security***, set ***Secret data folder*** to ***Show***.
	Is ***Secret*** under each function set to ***On***?	Select ***Unlock temporarily*** from [Y!] on the window to view information.
Sending message failed **appears**	If send fails, error message and reason appear.	Confirm reason and try again.

Problem	Possible Cause	Solution
Service not allowed **appears**	Handset is outside the service area.	Send from within the service area.
Sending operation cannot be operated in offline mode **appears**	In ***Offline***, handset transmissions are disabled.	Set ***Offline*** to ***Off*** (➲P.1-11).
Storage space short by ＊＊ bytes. Edit data folder files? **appears**	Handset memory is full.	Delete unnecessary files and try again.
Cannot download. File corrupt. **appears**	-	File cannot be downloaded; cancel download.
Unable to call via Stereo Earphone Microphone (Optional)	Is ***Earphone call*** set to ***Off***?	Even if ***Earphone call*** number is saved, if ***Earphone call*** is set to ***Off*** it will not be dialed. Set ***Earphone call*** to ***On*** (➲P.13-10).

Cleaning Handset

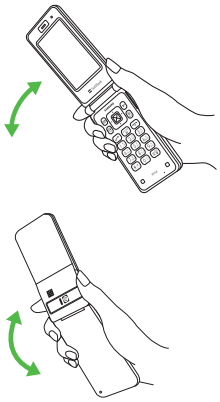
Wipe off dirt, sand, beverage, etc., gently with cloth. Then with Battery Cover closed, hold handset approximately 10 cm below faucet or shower head and clean with low-pressure tap water (six liters/min. or lower) at normal temperatures (5 °C - 35 °C). Clean with your hands, taking care not to open the covers; do not use a brush or sponge. Dry handset before use.

- Before cleaning handset, make sure that Battery Cover and Port Cover are closed firmly.
- Do not use a washing machine or ultrasonic cleaner.
- Do not place handset in a microwave oven to dry it. Battery/handset may leak, burst, overheat or ignite; may cause malfunction, accident or injury.
- Do not dry handset by exposing it to extreme heat (e.g., hot air from dryers, etc.); may cause warping, discoloration or damage.
- Do not subject handset to strong shocks or impacts; do not poke Air Vent, Microphone, Earpiece, Speaker, etc. with a cotton swab or sharp object;

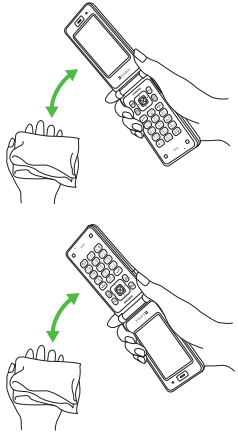
Drying Handset

If handset gets wet, follow these steps to dry it:

1. **Wipe handset surface with dry cloth**
2. **Firmly grasp hinges, and shake handset about 20 times**



3. **Pat dry cloth on grooves (Microphone, Earpiece Speaker, etc.) to remove moisture**

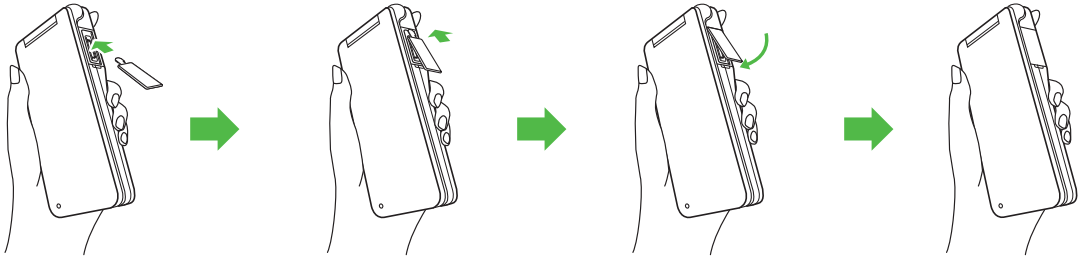


4. **Leave handset for approximately two to three hours at room temperature**

Reattaching Port Cover

If Port Cover becomes detached from handset, follow these steps to reattach it:
Reattaching Port Cover for Memory Card is the same as that of External Device Port.

1 Follow steps illustrated below:
Reattaching Port Cover for Memory Card is the same as that of External Device Port.



Software Update

SoftBank periodically releases firmware updates. Download as required.

1. ▣ → *Tools* → *Useful* → *Software update*
2. *Start update* → ✉ (Yes)
   - Handset connects to network.
3. *Yes*
   - Read *Terms of Use* before selecting *Yes*.
4. ▣ (OK)
   - Update starts. When complete, handset powers off and restarts; notification appears.

- For procedures, see SoftBank Mobile Website: (http: //mb.softbank.jp/en/global_services/)
- Confirming/downloading updates does not incur fees.

Note

- **Updates do not incur communications charges.**
- **Updates may take up to approximately 30 minutes. Handset is disabled until update is completed.**
- **Make sure battery is full before updating.**
- **Update where the signal is strong, do not move while updating.**
- **While updating, other functions are unavailable.**
- **Always back up important information (some data such as downloaded files, etc. may not be backed up). Data saved on handset before updating remain there, but in some situations (malfunctions, etc.), data may be lost. SoftBank Mobile is not liable for damages from lost information, etc.**
- **Do not remove battery and USIM Card. Do not turn off handset. Update may fail.**
- **Update failure may disable handset. Contact SoftBank Mobile Customer Center, Customer Assistance (➲P.14-29).**
- **If updated handset fails to restart, remove and reinsert battery then power on. If this fails, call SoftBank Mobile Customer Center, Customer Assistance (➲P.14-29).**

Specifications

Handset specifications may change without prior notice.

SoftBank 001SC

Item	Specification
Weight*	124 g
Continuous Talk Time*	Voice Call: 200 minutes (3G)
Continuous Standby Time* (Display off)	350 hours (3G)
Dimensions (W x H x D))*	51 × 113 × 11.7 (Thinnest part) 14.8 (Thickest part)
Maximum Output	0.25 W
Charging Time	120 minutes

*Approximate value

- Handset with battery installed.
- Battery Time is calculated by SoftBank Mobile under stable signal conditions. Calling in poor signal conditions or leaving handset on out-of-range will consume more power and may reduce Battery Time by more than half.
- Frequent handset operations requiring Backlight (e.g., Yahoo! Keitai) may reduce Continuous Talk Time and Continuous Standby Time.
- Using video for Wallpaper may significantly reduce Continuous Talking and Continuous Standby Time.
- Continuous Talk Time is an average measured with a battery in stable signal conditions. Continuous Standby Time is an average measured with a new, fully charged battery with handset closed without calls or operations, in Standby, in stable signal conditions. Alternating between usage and Standby shortens Continuous Talk Time and Continuous Standby Time. Talk Time/Standby Time may vary by environment (battery status, ambient temperature, etc.).

Materials & Finishing

Parts	Materials & Finishing
Housing (upper)	SUS/SPRAY

Downloaded Pictograms	GIF, GPK
Mail Art	
Image related to message	JPEG, GIF
Ring Songs・Tones	
Voice Recorder files, downloaded music, and other sound files	MIDI, SP-MIDI, SMF, Mobile XMF, MPEG4 Audio, AMR
Music	
Downloaded Chaku-Uta®	MPEG4 Audio (mp4, m4a, 3gp), smc
Videos	
Handset video files	MPEG4 (mp4, 3gp) [2]

Folder/Description	File Type[1]
Message Templates	
S! Mail Templates	HMT
Other documents	
Document, graphic, vcf, vcs[3], etc. files requiring File viewer for use on handset.	vcf file, vcs file, URL, EML, PDF, XLS, DOC, PPT, TXT, HTML, VNT, OPML, Unsupported file

[1]Files are saved by type. Files cannot be moved to or saved in folders that do not support them.

[2]Files exceeding 320x240 in resolution cannot be played.

[3]Use vcf, vcs files to send or transfer handset files via S! Mail, etc. Handset supports vcf file, for Phone Book entries, and vcs file for Task/Schedule.

Warranty & Service

Headset specifications may change without prior notice.

Warranty

Handset purchase includes Warranty.

- Confirm shop name and date of purchase.
- Read through the contents of the Warranty and keep it in a safe place.
- The warranty period can be found in the Warranty.

SoftBank Mobile is not liable for damage to you or a third party from missed calls, etc. due to handset failure or malfunction, etc.

Repair Requests

Before submitting handset for repair, consult "Troubleshooting" (➔P.14-2) for a solution. If a problem persists, contact SoftBank Mobile Customer Center, General Information (➔P.14-29) or the nearest SoftBank Shop; be prepared to describe problem in detail.

- During the warranty period, repairs will be made under the terms and conditions described in the warranty.
- After the warranty period, repairs will be upon request; if said repairs can be made, you will be charged for them.

Note

- **Handset files and settings may be lost or altered due to accidents or repairs. Keep a copy of important files, etc. like Phone Book entries. SoftBank Mobile is not liable for damage resulting from accidental loss or alteration of handset files (Phone Book, Data Folder, etc.) or settings.**
- **Disassembling or modifying this product may be a violation of the Radio Law. Note that SoftBank Mobile will not accept repair requests for disassembled or modified products.**
